SUPPORTING STATEMENT

FOR

PLANNING APPLICATION FOR SINGLE STOREY SIDE EXTENSION (Ref: 21/00543/FUL)

AT

19 LOWRY CLOSE, TOWER HILL, KIRKBY L33 4HJ

30 January 2022

The reason for this extension is to provide a better living environment for the son of the owner, who has cerebral palsy, autism and is registered disabled. This was brought on by a stroke shortly before birth, resulting in him having severely restricted use of his right arm.

Due to his condition, his son is quite reclusive, and spends most of his time playing computer games in his bedroom. However, he loves playing pool, which is also important to help with his mobility and dexterity. This proposed extension would provide an ideal space for a pool table, with relaxing areas so he can interact more with family and friends.

In order to minimise the impact of the extension on the street scene, the side boundary wall will be demolished to the front and side parts of the garden.
