Statement of Community Involvement

Land at Southdean Road, Huyton

This statement accompanies a detailed planning application for 137 affordable homes at land off Southdean Road, Huyton.

Engagement and involvement has been limited to detailed discussions with Liverpool's largest provider of affordable housing, Livv Housing Group. They have shaped the type of units, size and tenure of the properties. This has been carried out in partnership with their development team who have fully liaised with housing management and their community officer.

Breck have also carried out a flyer drop to all residents in the surrounding area along Southdean Road and Ashbury Road. This details a dedicated email address that residents of the community can submit feedback to, following a description of our proposals, along with our proposed layout.

Should further Community Involvement be required through the application process Breck Homes and Livv Housing Group would be delighted to host a local member briefing meeting, along with any further consultation they see fit.
