

Architectural drawing of a building facade. The roof is made of corrugated metal. The facade features five windows: three rectangular windows in the upper row and two windows in the lower row. The window on the left is tall and narrow, while the window in the center is wider and shorter. The window on the right is square. A dashed horizontal line indicates the ground level. A note in the top right corner states: "Do not scale this drawing - check all dimensions on site ."

[illegible]
