

<u>APPLICATION NO:</u>	23/00644/FUL	<u>CASE OFFICER:</u>	Reece Black
<u>WARD:</u>	Prescot North	<u>PARISH:</u>	Prescot Town Council
<u>LOCATION:</u>	15 Newhall Road, Prescot, Knowsley		
<u>PROPOSAL:</u>	CONVERSION OF GARAGE TO FORM HABITABLE ROOM		

Site Description

The application site is located at 15 Newhall Road, Prescot and is located in an area that is allocated as an Action Area in the Development Plan. The application property is a detached dwelling house, is brick facing on its front, side and rear elevation along with white UPVC openings and grey, flat, interlocking roof tiles. The property features a black garage door on its front elevation.

Proposal

The application seeks permission for part conversion of the existing garage to habitable room. This would see the removal of the internal garage space and the removal of the external garage door.

Consultations

Prescot Town Council - No Comments Received.

Representations

This application has been publicised by letters sent to 6 neighbours. No representations have been received.

Planning History

APP. NO:	17/00661/REM
PROPOSAL:	RESERVED MATTERS APPLICATION FOR THE ERECTION OF 173 NO. DWELLINGS, LANDSCAPING, VEHICULAR AND PEDESTRIAN ACCESSES AND ASSOCIATED WORKS (ACCESS, APPEARANCE, LANDSCAPING, LAYOUT AND SCALE TO BE CONSIDERED)
DECISION:	GRANTED
DECISION DATE:	16 January 2018

Under 17/00661/REM Permitted Development Rights have been removed from the application property.

Condition 4 of the decision notice states that, the garages hereby permitted shall not be converted into living accommodation (either in whole or part) and shall be retained for use as garages by the dwellings hereby approved at all times.

Reason: To ensure adequate garaging/off street parking provision is retained and thereby to avoid the harm to amenity, safety or convenience caused by on street parking and to comply with Policies CS7 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016.

Relevant Policy

Paragraph 11 of the National Planning Policy Framework (NPPF) states that planning decisions should apply a presumption in favour of sustainable development. This means approving development proposals that accord with an up-to-date development plan without delay; or where the development plan is absent, silent or out of date planning permission should be granted unless the application of policies in the NPPF that protect areas or assets of particular importance provides a clear reason for refusing the development proposed; or any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in the NPPF taken as a whole.

Paragraph 12 of the NPPF clarifies that the presumption in favour of sustainable development does not change the statutory status of the development plan as the starting point for decision making. Where a planning application conflicts with an up-to-date development plan, permission should not normally be granted. Local planning authorities may take decisions that depart from an up-to-date development plan, but only if material considerations in a particular case indicate that the plan should not be followed.

The development plan in Knowsley comprises the Saved Policies of the Replacement Unitary Development Plan, the Core Strategy Local Plan and the Joint Waste Local Plan. The following policies are relevant to the determination of this application.

KNOWSLEY LOCAL PLAN: CORE STRATEGY SAVED POLICIES - KNOWSLEY REPLACEMENT UNITARY DEVELOPMENT PLAN (ADOPTED JUNE 2006)

- CS2 - Development Principles
- CS19 - Design Quality and Accessibility in New Development
- H5 - Development within Primarily Residential Areas
- H8 - Extensions and Alterations to Residential Properties

In addition, the Householder Development SPD (2016) is a material consideration for the purposes of this planning application and provides additional guidance in relation to householder development within Knowsley Borough.

Article 35 Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Assessment

The application site and proposed development is identified as an Action Area in the adopted Development Plan. However, this designation is no longer relevant since the construction of a new-build housing estate following the demolition of the (former) Prysmian Cables & Systems Site. As such, a domestic alteration within a new-build housing estate is considered to be acceptable in principle, subject to compliance with local planning policy and guidance.

Saved Policy H5 in the Replacement Unitary Development Plan states that proposals for development within Primarily Residential Areas will be permitted provided that:

1. The Primarily Residential Areas are indicated on the Proposals Map
2. New development within the Primarily Residential Areas (or proposals for the change of use or redevelopment of existing buildings) which is for uses appropriate to a residential area will be permitted provided that the development (either by itself or in conjunction with other developments) would not:
 - a) Have an unacceptable impact on the amenity occupiers by reason of noise, disturbance, overlooking, visual intrusion, smells, fumes, on-street parking or other causes; or,
 - b) Adversely affect the character or street scene of the area.

Saved Policy H8 in the Replacement Unitary Development Plan states that proposals for extensions and alterations to dwellings will be permitted provided that:

- a) The proposals would not (due to their scale and massing) result in a disproportionate addition to the original dwelling
- b) The design and materials used would reflect those used on the original dwelling
- c) The proposal would not adversely affect the amenity or privacy of occupiers of adjacent dwellings
- d) The proposal would not create potential hazards for highway users by obstructing visibility for pedestrians or drivers of motor vehicles; and
- e) Adequate parking and garden space would remain in use by the residents of the extended property

Design

The existing dwelling is brick facing, with white UPVC windows and doors, and flat, roof tiles. The proposed development would also be brick facing and include materials and design to match the existing application property, this includes any brick detailing to keep in with the existing design of the windows on the front elevation of the existing dwelling. The black garage door on the property would be replaced by matching brickwork and fenestration. The proposed window would be of the same width of the existing garage door, and this is to ensure it responds positively to the above lintel detailing.

Therefore, it is considered that the proposed development has an acceptable design and does not conflict with any of the Saved Policies of H5 or H8.

Residential Amenity

The proposed development causes no issues to neighbouring amenities as the proposal is considered to adversely impact amenities for local residents or severely detract from the established character of the street scene.

Highways

The application sites current parking provisions provide up to 2 off-street parking spaces within the curtilage of the dwelling. The proposed development would result in the loss of one of the garage parking spaces, however, there would still be sufficient parking spaces within the curtilage of the dwelling in the form of two spaces provided by the hardstanding to the front of the dwelling.

This would ensure that adequate off-street parking would be retained. The proposed development would not cause an adverse impact on the public highway and the proposed development would be in accord with Saved Policy H5 and H8 and would be acceptable.

Conclusion

The proposal would be acceptable in terms of design, residential amenity and highways. The proposal also complies with the relevant Core Strategy, Replacement UDP policies and guidance in the NPPF and is therefore recommended for approval subject to conditions.

Recommendation

That Planning Permission be granted subject to the following condition(s):-

- 1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: In order to comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2) The materials to be used on the external surfaces of the extension hereby permitted shall match those of the existing building in type, size, colour and texture.

Reason: In the interests of visual amenity and to comply with Saved Policy H8 of the Knowsley Replacement Unitary Development Plan, adopted in June 2006, Policy CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016, and the National Planning Policy Framework.

- 3) The development hereby permitted shall be carried out in accordance with the approved plans and documents listed in Schedule 1.

Reason: For the avoidance of doubt.
