PLANNING STATEMENT

Academy Business Park, Knowsley
Removal of condition 16 from planning permission 19/00337/OUT
July 2022

Description of development

Removal of condition 16 from planning permission 19/00337/OUT

Planning permission 19/00337/OUT:

Outline planning application for the demolition of weighing station and the erection of 5 industrial units (use class B1(c)/B2/B8); 7 trade counter units (B8 use); 1 self-storage facility (B8 use); 1 retail/food unit (use class A1/A3/A5) and 1 drive-thru unit (use class A1/A3/A5) together with car parking and associated works

Type of application

Removal of condition under section 73 of the Town and Country Planning Act 1990

Applicant

ORBIT INVESTMENTS (PROPERTIES) LIMITED

List of supporting documents

1. Drawing pack from Orbit developments comprising
 - Site location plan ref: 389-PL-2102 Rev F
 - Proposed site plan ref: 389-PL-2103 Rev F
 - Proposed site plan indicative layout ref: 137-1061
 2. Maddox planning statement, June 2022 (this document)
-

Development plan

The adopted development plan comprises:

1. Knowsley Local Plan Core Strategy, adopted 2016
2. Knowsley Replacement Unitary Development Plan (saved policies), adopted 2006
3. Merseyside and Halton Joint Waste Local Plan, adopted July 2003
4. Adopted proposals map, incorporating amendments made following the adoption of the Waste Local Plan in July 2013 and the Local Plan Core Strategy in 2016

The emerging development plan comprises:

1. None being prepared

Policies map

The following designations on the policies map are particularly relevant:

1. LPCS CS4 *Economy and Employment*
2. UDP EC2 *Sites Allocated for Employment Development*
3. UDP EC3 *Primarily Industrial Area*

Planning policies

The following adopted planning policies are particularly relevant:

Document	Policy number	Policy title	Referred to in paragraph number of this statement
LPCS	SD1	Sustainable Development	-
LPCS	CS1	Spatial Strategy for Knowsley	-
LPCS	CS2	Development Principles	-
LPCS	CS4	Economy and Employment	-
LPCS	CS11	Principal Regeneration Centre: Knowsley Industrial and Business Parks	2.3 3.9, 3.13, 3.21
UDP	EC2	Sites Allocated for Employment Development	-
UDP	EC3	Primarily Industrial Areas	2.3 3.9, 3.13, 3.21

Other material considerations

Other material considerations (such as national planning policy and supplementary planning documents, area action plans and design briefs) include:

1. Delivering a New Future for Knowsley Industrial Park – Strategic Framework, August 2010
2. National Planning Policy Framework, July 2021 – particularly paragraphs 7-11, 14, 38, 55-56, 81, 83, 119 and 124
3. National Planning Policy Guidance – particularly paragraphs: 001: 21a-001-20140306 (06/03/2014), 002, 003, 004, 005, 008, 018, 040: 21a-002-20190723 (23/07/2019), 031: 21a-031-20180615 (15/06/2018)

Relevant planning decisions

Reference	Description	Status/decision date	Referred to in paragraph number of this statement

1.0 Site and area description

- 1.1 The site address is Lees Road, Knowsley, L33 7BY. The 2.85ha site is part of Academy Business Park.
- 1.2 Academy Business Park is part of a broader employment area, Knowsley Industrial park. It is located some 1.3km to the east of Kirkby and 1.0km to the west of Knowsley. M57 J4 and the A580 are 1.5km to the south, providing access to the motorway and trunk road network.
- 1.3 The site is in the process of being transformed through redevelopment into a modern commercial and employment area. It is previously developed land, and new floorspace is being built on what was formerly hardstanding and in-part grassland. The applicant has constructed eight single storey employment units on a speculative basis, intended for Class B8 use. These adjoin Lees Road and comprise two terraces of units: 1F to 1H¹ with a total GIA of 1,025 sq. m and units 6C to 6G² with a total GIA of 1,860 sq. m. Units 1F to 1H are orientated north-south and units 6C-6G to the south of these face southwest-northeast.
- 1.4 Screwfix has occupied unit 6G and other prospective tenants have entered into agreements for units 6E and 6F. The remaining units are currently being marketed.
- 1.5 The immediate area is primarily commercial, with a mix of employment and residential areas beyond. To the south of the site are County Road (A5208) and an adjoining Costa drive-thru. To the west are other areas of the business park, and beyond this Arbour Lane. To the south of County Road and west of Arbour Lane is primarily residential. To the north of the site are further areas of the business park. Beyond this, and to the east beyond Lees Road is the wider Knowsley Industrial Park. Boundaries are defined by palisade fencing.
- 1.6 Access is from Lees Road (access only) and the roundabout at the western end of County Road (access and egress). Parking is provided adjacent to each of the commercial units.
- 1.7 The site is entirely within flood zone 1 (the least probability of flooding). There are no buildings on site or nearby that are statutorily listed as heritage assets. The site is not in a conservation area, and there is no conservation area nearby. The site and its immediate surroundings are not identified on Natural England maps of being of any specific value. There are no public rights of way affecting the site. The site is not located within an air quality management area.

¹ Planning permission 19/00337/OUT

² Planning permission 20/00467/FUL

2.0 Proposed development

- 2.1 A planning application is submitted under Section 73 of the Town and Country Planning Act 1990. The proposed description of development is:

Removal of condition 16 from planning permission 19/00337/OUT

- 2.2 The description of development on outline planning permission 19/00337/OUT is:

Outline planning application for the demolition of weighing station and the erection of 5 industrial units (use class B1(c)/ B2/B8); 7 trade counter units (B8 use); 1 self-storage facility (B8 use); 1 retail/food unit (use class A1/A3/A5) and 1 drive-thru unit (use class A1/A3/A5) together with car parking and associated works

- 2.3 Condition 16 attached to the outline planning permission states that:

The development consisting of the five employment use units (B1(c)/B2/B8), in all comprising Units 1A - 1E as shown on the approved Proposed Site Plan drawing, shall be substantially completed prior to the first use of either the drive-thru unit or the food/retail kiosk (Use Class A1/A3/A5). For the avoidance of doubt this shall include as a minimum completion of the external walls and roof of the buildings and surfacing and layout of the approved car parking and servicing areas.

Reason: To ensure that the drive-thru unit and food/retail unit are not developed independently of the industrial unit employment uses and to ensure compliance with Policies CS4 and CS11 of the Knowsley Local Plan Core Strategy adopted January 2016 and saved Policy EC3 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

- 2.4 The applicant has received a number of inquiries for occupation of units 6A and 6B (the drive-thru unit or the food/retail kiosk) and now wish to proceed with construction of these as the next phase of development.
- 2.5 There is no proposed change to the development granted under planning permission ref: 19/00337/OUT save for: the changes to units 1A to 1C and 6C to 6G secured through the grant of planning permission ref: 20/00467/FUL; reflecting non-material amendments to ref: 19/00337/OUT (ref: 19/00337/NMA and ref: 19/00337/NMA1); and having regard to planning application ref: 22/00302/FUL which seeks to change the use of units 1F – 1H from Class B8 to Class E(g) / B2 / B8 use. The proposed development is also consistent with reserved matters approval ref: 20/00146/REM, and conditions already discharged.

Layout, scale and massing

- 2.6 The layout, scale and massing will be as per planning permission ref: 19/00337/OUT, save for the changes to units 1A to 1C and 6C to 6G secured through the grant of planning permission ref: 20/00467/FUL.

External appearance

- 2.7 The external appearance will as appropriate be consistent extant planning permissions ref: 19/00337/OUT and ref: 20/00467/FUL, with reserved matters approval ref: 20/00146/REM and with conditions already discharged.

Landscaping, access and parking, accessibility and refuse and recycling

- 2.8 Other relevant matters are landscaping, access and parking, accessibility and refuse and recycling. These will all be as per planning permission 19/00337/OUT, save for the changes to units 1A to 1C and 6C to 6G secured

through the grant of planning permission 20/00467/FUL, and as appropriate will be consistent with reserved matters approval ref: 20/00146/REM and conditions already discharged.

3.0 Considerations

- 3.1 Section 38(6) of the Planning Compulsory Purchase Act 2004 requires that proposals be determined in accordance with the development plan unless material considerations indicate otherwise. This section therefore assesses the proposal against the development plan policies outlined above and examines relevant material considerations where appropriate. The assessment draws upon the suite of application documents listed at Section 1 of this statement. The main planning considerations are: a) the provisions of S73 of the Town and County Planning Act 1990; b) use of conditions; c) justification for removal of condition 16 – (i) speculative floorspace built and current demand, (ii) economic conditions, and (iii) a pro-active approach to planning applications and economic development; and d) planning conditions and obligations.

Provisions of S73 of the Town and County Planning Act 1990

- 3.2 Section 73 of the Town and Country Planning Act 1990 allows for applications for planning permission for the development of land without complying with conditions subject to which a previous planning permission was granted.
- 3.3 Section 73(2) is clear that:

On such an application the local planning authority shall consider only the question of the conditions subject to which planning permission should be granted, and—

- (a) if they decide that planning permission should be granted subject to conditions differing from those subject to which the previous permission was granted, or that it should be granted unconditionally, they shall grant planning permission accordingly, and*
 - (b) if they decide that planning permission should be granted subject to the same conditions as those subject to which the previous permission was granted, they shall refuse the application*
- 3.4 Consideration of this planning application should be limited to whether there is justification for the development of the business park site without compliance with condition 16 attached to planning permission 19/0337/OUT. There is no remit for the local planning authority to open up consideration of matters beyond the justification behind the proposed removal of condition 16, having regard to current on-site circumstances.

Use of conditions

- 3.5 Paragraph 55 of the National Planning Policy Framework (the Framework) makes clear that planning conditions should be kept to a minimum, and only used where they satisfy the following tests:
- necessary;
 - relevant to planning;
 - relevant to the development to be permitted;
 - enforceable;
 - precise; and
 - reasonable in all other respects
- 3.6 These are referred to in the Planning Practice Guidance (PPG) as the six tests, and each of them needs to be satisfied for each condition which a local planning authority intends to apply.

- 3.7 The PPG is clear that the imposition of conditions should be exercised in a way that is clearly seen to be fair, reasonable and practicable³. It is good practice to keep the number of conditions to a minimum⁴. The PPG also deals with conditions used to stipulate the sequence that development should be carried out in. The circumstances of the application have to make a phasing condition necessary, and the six tests need to be met. The PPG continues that it is important for a local planning authority to consider how any phasing requirements would fit into the planned sequence for developing the site, the impacts on viability and whether the tests of reasonableness and necessity can be met⁵.
- 3.8 Given that condition 16 has already met its objective, albeit in a different way to how it was originally envisaged, its continued imposition is at odds with bringing further phased development forward. It no longer fits with the planned sequence of development and has the potential to impact upon viability and deliverability. Significant employment floorspace is already built out, and this exceeds the quantum of floorspace that is the subject of condition 16. In the context of this S73 application condition 16 no longer meets the six tests as it is not necessary and is not reasonable.

Justification for removal of condition 16

- 3.9 Condition 16 requires that: *five employment use units (B1(c)/B2/B8), in all comprising Units 1A - 1E as shown on the approved Proposed Site Plan drawing, shall be substantially completed prior to the first use of either the drive-thru unit or the food/retail kiosk (Use Class A1/A3/A5).* The reason given for this is:

To ensure that the drive-thru unit and food/retail unit are not developed independently of the industrial unit employment uses and to ensure compliance with Policies CS4 and CS11 of the Knowsley Local Plan Core Strategy adopted January 2016 and saved Policy EC3 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

i) Speculative floorspace built and current demand

- 3.10 Eight employment units are already built speculatively. Two terraces of units are completed comprising: 1F to 1H with a total GIA of 1,025 sq. m; and units 6C to 6G with a total GIA of 1,860 sq. m. Total floorspace built out is 2,885 sq. m, which exceeds the 2,856 sq. m of units 1A-1E which are the subject of condition 16. The objective of condition 16 is already satisfied, in that significant employment floorspace is already built out such that the drive-thru unit and food/retail unit will not be developed independently of the employment floorspace. Moreover, the quantum of employment floorspace built out exceeds that which condition 16 sought to ensure came forward ahead of other non-employment floorspace.
- 3.11 Condition 16 does not stipulate what type of employment floorspace should come forward. Whilst units 1A to 1E benefit from planning permission that covers the full remit of employment uses, these could have come forward in Class B8 use. This is in common with the intention with which units 1F to 1H and 6C to 6G are built out.
- 3.12 The potential for non-Class B8 employment use in units 1F to 1H will be established through any grant of planning permission under current planning application ref:22/00302/FUL .
- 3.13 The speculative floorspace built out, and the otherwise unchanged nature of the business park scheme mean that development coming forward without compliance with condition 16 will continue to be entirely consistent with the overall employment development strategy of core strategy policy CS4, and contribute to the regeneration objectives of policy CS11. The current planning application seeking a broadening of potential uses in units 1F to 1H (ref:22/00302/FUL) is in line with the policy CS11 encouragement for a mix of

³ PPG paragraph: 001 Reference ID: 21a-001-20140306

⁴ PPG paragraph: 018 Reference ID: 21a-018-20190723

⁵ PPG paragraph: 008 Reference ID: 21a-008-20140306

high quality employment uses, with a focus on office uses within gateway locations. Saved UDP policy EC3 allows for non-employment uses in the primarily industrial areas, provided that these are complementary in scale and nature and address identified needs of the area. Given that the proposed development does not seek any change in the non-employment uses proposed, only that they now be allowed to come forward as the next stage of development, it can be concluded that the proposed development continues to accord with the provisions of policy EC3.

- 3.14 The applicant is responding to the demand for occupation of non-employment floorspace, having built out significant Class B floorspace.
- 3.15 Paragraph 83 of the Framework sets out that planning policies and decision should recognise and address the specific locational requirements of different sectors. Paragraph 119 continues that planning decisions should promote an effective use of land in meeting the need for different uses.
- 3.16 Paragraph 38 of the Framework is clear that LPAs should approach decisions on proposed developments in a positive and creative way, and work proactively with applicants to secure developments that will improve the economic, social and environmental conditions of an area.

ii) Economic conditions

- 3.17 Paragraphs 7 to 11 of the Framework are concerned with the purpose of the planning system being contribution to the achievement of sustainable development, and one of the overarching objectives of the planning system is an economic objective; to help build a strong, responsive and competitive economy by ensuring that sufficient land of the right types is available in the right place and at the right time to support growth, innovation and improved productivity.
- 3.18 There is support at paragraph 124 of the Framework for development that makes efficient use of land, and direction that decision should take into account local market conditions.
- 3.19 In light of challenging economic times, every opportunity should be taken to encourage economic activity and job creation. As a result of the pandemic and other global factors, encouragement of commercial development is needed to assist in economic recovery. The proposed removal of condition 16 has the potential to provide sustainable development and support businesses, directly and indirectly, to deliver investment and job creation.
- 3.20 Paragraph 11 sets out the Framework presumption in favour of sustainable development, which for decision taking means approving development proposals that accord with an up-to-date development plan without delay⁶.

A pro-active approach to planning applications

- 3.21 Key development plan policies including core strategy policies CS4 and CS11 and saved UDP policy EC3 set the context for a pro-active approach to proposed development, and specifically those which have the potential to support economic growth and employment generation.
- 3.22 Paragraph 81 of the National Planning Policy Framework (the Framework) states that:

'Planning policies and decisions should help create the conditions in which businesses can invest, expand and adapt. Significant weight should be placed on the need to support economic growth and productivity, taking into account both local business needs and wider opportunities for development. The approach taken should allow each area to build on its strengths, counter any weaknesses and address the challenges of the

⁶ Framework paragraph 11(c)

future. This is particularly important where Britain can be a global leader in driving innovation⁴, and in areas with high levels of productivity, which should be able to capitalise on their performance and potential’.

- 3.23 Granting planning permission to allow further development to come forward without compliance with condition 16 would represent a pro-active approach to encouraging economic development and investment through allowing more of the business park development to be built out, responding to local market conditions and demands in a time of economic uncertainty.

Planning conditions and obligations

- 3.24 Planning conditions attached to a new planning permission should reflect those attached to the original planning permission ref 19/00337/OUT, amended to take account of the later planning permission that relates to units 1A to 1C and 6C to 6G (ref: 20/00467/FUL), current planning application ref:22/00302/FUL , reserved matters approvals and conditions already discharged.
- 3.25 The following conditions attached to 19/00337/OUT should be either carried over unchanged, carried over amended or omitted:
- 1) Omitted
 - 2) Omitted
 - 3) Carried over amended including updated Schedule 1
 - 4) Carried over and amended to only include the compliance element
 - 5) Carried over unchanged
 - 6) Omitted
 - 7) Omitted
 - 8) Carried over unchanged
 - 9) Carried over unchanged
 - 10) Carried over unchanged
 - 11) Carried over and amended to reflect changes in the Use Classes Order
 - 12) Carried over unchanged
 - 13) Omitted
 - 14) Carried over unchanged
 - 15) Carried over unchanged
 - 16) Omitted
 - 17) Carried over and amended to reflect changes secured through 20/00467/FUL (units 6C to 6G) sought through planning application 22/00302/VAR (units 1F to 1H)
 - 18) Carried over unchanged
- 3.26 A draft schedule of conditions is attached at **Appendix 5**. The plans condition/schedule attached to a new planning permission should reference the updated layout plan submitted and referenced in the preliminary section above.
- 3.27 Given that the proposed removal of condition 16 does not alter in any way the composition of the proposed development and that the planning obligations associated with both the original and later planning permissions are fulfilled there should be no reason for any new legal agreement in respect of the current planning application.

4.0 Conclusions

- 4.1 This statement demonstrates that the proposed development is in accordance with the material policies in the development plan for Knowsley. This conclusion is reached having regard to other material considerations, and particularly the Framework and Planning Practice Guidance. There are no material considerations that indicate any reason to deviate from the conclusion that this is a policy compliant, and indeed, sustainable development.

Benefits of the proposal

- 4.2 The principal benefits of the proposal are:
- Allowing the next stage of development to come forward without delay;
 - A development that continues to be compliant with development plan policy;
 - A location for commercial use that can bring significant benefit to Knowsley, and one of its principal gateway employment and commercial locations;
 - A development that knits together extant planning permission to allow delivery of further commercial floorspace alongside that already built out on a speculative basis;
 - A development appropriate to the context of the site;
 - Supporting the delivery of commercial floorspace with the potential to fulfil known demand and inward investment into Knowsley;
 - Significant economic investment and economic stimulus;
 - Both direct and indirect economic investment locally;
 - The realisation a high quality design and intelligent layout, appropriate to the context of the site; and
 - Not giving rise to any adverse impacts.
- 4.3 In light of challenging economic times, every opportunity should be taken to encourage economic activity and job creation. As a result of the pandemic and other global factors, encouragement of commercial development is needed to assist in economic recovery. The proposed development has the potential to support both existing businesses, directly and indirectly, and encourage inward investment into Knowsley.
- 4.4 The presumption in favour of sustainable development (Framework paragraph 11(c)) is engaged. Planning permission should be granted without delay.

Description of Development

OUTLINE PLANNING APPLICATION FOR THE DEMOLITION OF WEIGHING STATION AND THE ERECTION OF 5 INDUSTRIAL UNITS (USE CLASS B1(C)/B2/B8); 7 TRADE COUNTER UNITS (B8 USE); 1 SELF-STORAGE FACILITY (B8 USE); 1 RETAIL/FOOD UNIT (USE CLASS A1/A3/A5) AND 1 DRIVE-THRU UNIT (USE CLASS A1/A3/A5) TOGETHER WITH CAR PARKING AND ASSOCIATED WORKS.

The Council of the Metropolitan Borough of Knowsley hereby give notice in pursuance of the above Act(s) that Outline Planning Permission has been **granted** for the carrying out of the development referred to above in accordance with the application and plans submitted subject to the following condition(s):

1. Before any part of the development hereby granted permission is commenced, approval shall be obtained from the Local Planning Authority with respect to the reserved matters, namely landscaping.

Reason: The application is in outline form only

2. Application for approval of reserved matters must be made not later than the expiration of three years from the date of this permission and the development must be begun no later than the expiration of two years from the final approval of the reserved matters.

Reason: In order to comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

3. The development hereby permitted shall be carried out in accordance with the approved plans and documents listed in Schedule 1.

Reason: For the avoidance of doubt.

4. Prior to the commencement of development a Construction Environmental Management Plan shall be submitted to, and approved in writing by the Local Planning Authority. The Construction Environmental Management Plan shall include the following matters:
 - a) Methods for the mitigation of noise and vibration from building works, and also from the operation of any temporary power generation or pumping plant which will operate overnight.
 - b) Methods for dust control and suppression.
 - c) Control of transfer of mud out of the site - details of wheel washing facilities including location and type.
 - d) Layout of site compound including identification of areas for the storage of plant and materials, loading / unloading and turning areas for delivery vehicles.
 - e) Management of deliveries including prevention of waiting/layover of construction related traffic on the highway, measures for the control of traffic to and from the site and consideration of any temporary traffic management arrangements which may be necessary during periods of construction.
 - f) A programme of works including any phasing.
 - g) Construction staff parking arrangements.
 - h) Adequate provision for addressing any abnormal wear and tear to the highway.

The approved Construction Environmental Management Plan shall be complied with throughout the construction period for the development unless otherwise agreed in writing with the Local Planning Authority.

Reason: In the interests of amenity and highway safety and to comply with Policies CS2 and CS19 Knowsley Local Plan Core Strategy, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

5. During the construction period no works and no deliveries or removal of materials shall take place outside the hours of 0800 to 1800 Monday to Friday (excluding Public Holidays), 0800 to 1300 Saturday and not at all on Sundays and Public Holidays except with the prior written permission of the Local Planning Authority.

Reason: In the interests of amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

6. No development shall commence until detailed plans and particulars of the sustainable drainage system, in the form of a 'Confirmed / Final' Sustainable Drainage Strategy, for the management and disposal of surface water from the site has been submitted to and approved in writing by the Local Planning Authority, in consultation with the Lead Local Flood Authority.

The details of the 'Confirmed / Final' Sustainable Drainage Strategy must be based on the principles of greenfield standard with the surface water run-off not exceeding the pre-development greenfield runoff rate for an existing greenfield site or 5.0 l/s, whichever is greater, be accompanied by a completed Sustainable Drainage Pro-forma and meet all requirements, including submission requirements, of Knowsley Council's 'Sustainable Drainage Technical Guidance.'

Reason: To ensure satisfactory sustainable drainage facilities are provided to serve the site in accordance with the Paragraph 163 of the National Planning Policy Framework, House of Commons Written Statement 161 for Sustainable Drainage Systems, and Policy CS24 in the Core Strategy Local Plan.

7. Prior to the commencement of development full details of a scheme for a surface water sustainable drainage system to serve the site, and method of implementation shall be submitted in accordance with a 'confirmed / final surface water drainage strategy for consideration by the Local Planning Authority in consultation with Lead Local Flood Authority.

For the avoidance of doubt the scheme shall include the following:-

- I. Information about the lifetime of the development and design of the sustainable drainage system design, including storm periods and intensity (1 in 30 & 1 in 100 year + appropriate allowance for climate change), discharge rates and volumes (both pre and post development), methods employed to delay and control surface water discharged from the site, and appropriate measures taken to prevent flooding;
 - I. Demonstrate that the surface water run-off would not exceed the predevelopment greenfield runoff rate for an existing greenfield site or 5 l/s, whichever is greater;
 - II. Demonstrate that the runoff volume from the development to any drain, sewer or surface water body in the 1 in 100 year (plus climate change), 6 hour rainfall event, does not exceed the greenfield runoff volume for the same event or is as close as is practicable;
 - III. Include details of a site investigation (which should be carried out prior to design) to support infiltration proposals;
 - IV. Topography and finished floor levels. Include details of how any flood water, including depths, will be safely managed in exceedance routes; and
 - V. Secure means of access for maintenance and easements, where applicable
 - VI. A timetable for implementing the scheme.

Reason: To ensure a satisfactory drainage system is provided to serve the site in accordance with the Paragraph 163 of the National Planning Policy Framework, House of Commons Written Statement 161 for Sustainable Drainage Systems and Policy CS24 in the Core Strategy Local Plan.

8. Contaminated Land

A. Risk Assessment

No development shall take place until an assessment of the risks posed by any contamination within those phases has been submitted to and approved in writing by the Local Planning Authority. This assessment must be undertaken by a suitably qualified contaminated land practitioner, in accordance with authoritative guidance (CLR 11), and shall assess any contamination on the site, whether or not it originates on the site. Moreover, it must include (where relevant):

- I. a survey of the extent, scale and nature of contamination;
- II. an assessment of the potential risks to:
 - human health,
 - property (existing or proposed) including buildings, crops, livestock,
 - pets, woodland and service lines and pipes,
 - adjoining land,
 - groundwaters and surface waters,
 - ecological systems,
 - archaeological sites and ancient monuments.

B. Submission of Remediation Scheme

Where land affected by contamination is found which poses unacceptable risks in any phase including phase 1, no development shall take place until a detailed remediation scheme has been submitted to and approved in writing by the Local Planning Authority. The scheme must include an appraisal of remediation options, identification of the preferred option(s), the proposed remediation objectives and remediation criteria, and a description and programme of the works to be undertaken including the verification plan. As a minimum, the scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to its intended use.

C. Implementation of Approved Remediation Scheme

The approved remediation scheme shall be implemented and a verification report submitted to and approved in writing by the Local Planning Authority, prior to the development (or relevant phase of development) being brought into use.

D. Reporting of Unexpected Contamination

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority. Development on the part of the site affected must be halted and a risk assessment carried out and submitted to and approved in writing by the Local Planning Authority. Where unacceptable risks are found remediation and verification schemes shall be submitted to and approved in writing by the Local Planning Authority. These shall be implemented prior to the development (or relevant phase of development) being brought into use.

E. Importation of Soil/Material

No soil is to be imported to the site until it has been tested for contamination and assessed for its suitability for the proposed development; a suitable methodology for testing this material should be submitted to and agreed by the Local Planning Authority prior to the soils being imported onto site. The methodology should include the sampling frequency, testing schedules, criteria against which the analytical results will be assessed (as determined by the risk assessment) and source material information. The analysis shall then be carried out and evidence submitted to and approved in writing to by the Local Planning Authority.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors in accordance with Policies CS2 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016, and saved Policy ENV5 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

9. Fixed plant and machinery associated with the development shall be designed to a level that is at least 5dB(A) below the existing LA90 background noise level as measured during the relevant time period. Any tonal, impulsive and/or irregular noise would be addressed by imposing a penalty as per the methodology set out in BS4142:2014, Methods for rating and assessing industrial and commercial sound.

Noise limits for fixed plant are to apply at a position 1m from the closest affected window of the nearest noise sensitive property.

Reason: In the interests of residential amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

10. Prior to any external lighting being installed a lighting scheme shall be submitted to and agreed in writing by the Local Planning Authority. The scheme shall include:
 - Drawings of the lighting and lighting columns
 - A site layout indicating positions of the lighting columns and fixtures
 - An isolux drawing including luminosity details
 - Manufactures specifications
 - Maintenance details.
 - Details of support columns.

The scheme shall take into account the Institution of Lighting Engineers Guidance Notes for the Reduction of Obtrusive Light.

External lighting shall only be installed in accordance with the agreed scheme and shall be maintained thereafter in accordance with that agreed scheme unless otherwise agreed in writing with the Local Planning Authority.

Reason: In the interests of amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV3 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

11. Prior to the first use of the drive-thru unit or the A1/A3/A5 kiosk a scheme shall have been previously submitted to and approved in writing by then Local Planning

Authority detailing how the smoke and odour from each of the proposed A3/A5 uses will be controlled.

The information submitted must include;

- a. Details / specification of the equipment that will be installed to control odour and smoke
- b. The siting of any external ventilation stack; and,
- c. Details of any measures which are necessary to attenuate noise from the ventilation stack;

The approved scheme should take into account the requirements of the EMAQ guidance for the Control of Odour and Noise from Commercial Kitchen Exhaust Systems, dated 5 September 2018 and shall be fully installed and operating prior to the unit to which it is applicable first comes into use. It shall thereafter be retained and operated to then manufacturer's specification whenever the permitted use is in operation.

Reason: In the interests of amenity and to comply with Policies CS2 and CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV3 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

12. The drainage from the kitchen areas serving the A3/A5 uses (drive-thru unit and A1/A3/A5 kiosk) shall incorporate a grease trap of suitable size and design before its connection to any private or public sewer. The trap shall be installed and operating prior to the premises being brought into use. It shall thereafter be retained and operated in accordance with the approved specification at all times that the A3/A5 premises are in operation.

Reason: In the interests of amenity and to comply with Policies CS2 and CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV3 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

13. No development shall take place until a scheme for the design and layout of highway improvement works has been submitted to and approved in writing by the Local Planning Authority. For the avoidance of doubt, the works shall include but not be limited to:
 - a) Refreshment of signing and lining opposite the northern access on Lees Road to highlight the one way section of carriageway and the parking restrictions therein;
 - b) Amendment to signing and/or lining between the southern and northern accesses on Lees Road to improve forward visibility at the bend opposite Gores Road and improved decelerating and turning facility for users of the northern access, with further infrastructure amendment to ensure conflict potential is minimised and vehicle tracking is optimised;
 - c) Sustainable access entrance design about County Road and Lees Road which should prevent run-out and deter potential dangerous crossings, possibly requiring guardrail;
 - d) Any additional recommendations forthcoming from a Road Safety Audit of this area, to be undertaken by the developer and the Audit Report submitted to and agreed in writing by the Local Planning Authority.
 - e) The approved scheme shall be implemented prior to occupation of any of the units 1A -1H as per the approved Proposed Site Plan.

Reason: To ensure the provision of safe and adequate means of access to the development in the interests of highway safety and amenity and to comply with Policies CS2, CS7 and CS19 of the Core Strategy, adopted January 2016.

14. Notwithstanding any submitted details on approved drawings no unit shall be first occupied until a scheme for the provision of cycle and motorcycle parking, in accordance with the Council's current standards, has been submitted to and approved in writing by the Local Planning Authority. The scheme shall be implemented with regard the appropriate unit as approved before that particular unit is first brought into use and shall be retained as such thereafter. For the avoidance of doubt, long stay cycle parking must be covered and offer a means to secure the cycles.

Reason: To ensure that adequate provision is made for parking cycles and motorcycles on the site and to comply with Policies CS2 and CS7 of the Core Strategy, adopted January 2016.

15. Notwithstanding any submitted details within 3 months of the development being first brought into use a Travel Plan shall be submitted to and approved in writing by the Local Planning Authority. The Plan shall include immediate, continuing and long-term measures to promote and encourage alternative modes of transport to the single-occupancy car. For the avoidance of doubt, the Travel Plan shall include, but not be limited to:

- Involvement of employees.
- Information on existing transport policies, services and facilities, travel behaviours and attitudes.
- Access for all modes of transport.
- Targets for mode share.
- Resource allocation including Travel Plan Co-ordinator and budget.
- A parking and management strategy.
- A marketing and communications strategy.
- Appropriate measures and actions to reduce car dependence and encourage sustainable travel.
- An action plan, including a timetable for the implementation of each of the above.
- Mechanisms for monitoring, reviewing and implementing the Travel Plan.

The approved Travel Plan shall be implemented in accordance with the timetable contained therein and shall continue to be implemented as long as any part of the development is occupied and in use.

An annual report shall be submitted to the Council no later than 1 month following the anniversary of the first occupation of the development for a period of 5 years. The report shall include a review of the Travel Plan measures, monitoring data and updated action plan.

Reason: To maximise opportunities for travel by modes of transport other than the private car, to ensure that the development is sustainable and to comply with Policies CS2 and CS7 of the Knowsley Local Plan Core Strategy adopted January 2016.

16. The development consisting of the five employment use units (B1(c)/B2/B8), in all comprising Units 1A - 1E as shown on the approved Proposed Site Plan drawing, shall be substantially completed prior to the first use of either the drive-thru unit or the food/retail kiosk (Use Class A1/A3/A5). For the avoidance of doubt this shall include as a minimum completion of the external walls and roof of the buildings and surfacing and layout of the approved car parking and servicing areas.

Reason: To ensure that the drive-thru unit and food/retail unit are not developed independently of the industrial unit employment uses and to ensure compliance with Policies CS4 and CS11 of the Knowsley Local Plan Core Strategy adopted January 2016 and saved Policy EC3 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

17. The B8 Use units as shown on the approved Proposed Site Plan as Units 1F-1H and Units 6D-6G shall not be used for any other purpose other than Use Class B8 of the Town and Country Planning Use Classes Order 1987 as amended, or alternatively Use Class B2 within that Order. Any B8 Use of those units shall have a trade counter element within the unit of no more than 15% of floor area of that individual unit for any ancillary retail sales.

Reason: For the avoidance of doubt and to ensure that the retail use remains ancillary to the main B8 use of units, thus limiting the loss of B8 floorspace and to comply with Policies CS4 and CS11 of the Knowsley Local Plan Core Strategy adopted January 2016 and saved Policy EC3 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

18. No unit shall be occupied until an outdoor, weatherproof electric vehicle charging point readily accessible from a dedicated parking space has been provided within the site to serve the unit. (The total development must have a minimum of 15 electric vehicle charging points).

All charge points shall be:

- a) A minimum of 7KW, and
- b) at Least Mode 3 or equivalent, and
- c) untethered, and
- d) located in order to comply with the Equality Act 2010 and the accessibility requirements set out in the Building Regulations Part M.

All EV charging points shall be clearly marked as such and their purpose explained to new occupants within any travel planning advice.

Reason: In the interests of air quality, promoting sustainable travel opportunities and to comply with Policies CS2, CS7 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016 and NPPF Para 110.

REASON(S) FOR THE GRANTING OF PLANNING PERMISSION

The decision to grant Outline planning permission has also been taken having regard to the policies and proposals as set out below, and to all relevant material considerations including supplementary planning guidance:-

KNOWSLEY LOCAL PLAN: CORE STRATEGY

SD1 - Sustainable Development
CS1 - Spatial Strategy for Knowsley
CS2 - Development Principles
CS4 - Economy and Employment
CS7 - Transport Networks
CS11 - Principal Regeneration Area - Knowsley Industrial and Business Parks
CS19 - Design Quality and Accessibility in New Development
CS24 - Managing Flood Risk
CS26 - Waste Management
CS22 - Sustainable and Low Carbon Development

SAVED POLICIES - KNOWSLEY REPLACEMENT UNITARY DEVELOPMENT PLAN (ADOPTED JUNE 2006)

EC1 - Strategy for Provision of Employment Land
EC2 - Sites Allocated for Employment Development
EC3 - Primarily Industrial Areas
ENV2 - Noise and Vibration
ENV5 - Contaminated Land

This informative is only intended as a summary of the reason(s) for the granting of Outline planning permission. Should you require any further details relating to the decision please contact the relevant case officer (Lee Osborne on 0151 443 2395)

ARTICLE 35 STATEMENT

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating with the applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

NOTE FOR APPLICANT:

IMPORTANT - PLEASE READ CAREFULLY THE NOTES BELOW AS FAILURE TO COMPLY COULD MAKE THE DEVELOPMENT HEREBY PERMITTED UNAUTHORISED

- 1) This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - a) Any variation from the approved plans following commencement of the development, irrespective of the degree of variation, will constitute unauthorised development and may be liable to enforcement action.
 - b) You or your agent or any other person responsible for implementing this permission should inform Planning Services immediately of any proposed variation from the approved plans and ask to be advised as to the best method to resolve the matter. Most proposals

for variation to the approved plans will require the submission of a new planning application.

- 2) This permission is granted subject to conditions and it is the owner of the property and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond.
- 3) If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent.
 - a) If a condition precedent is not complied with prior to the start of development, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - b) In addition, if the requirements of a condition precedent are subsequently not complied with, the development is unauthorised and the only way to rectify the development is the submission of a new application.

If any other type of condition is breached then you will be liable to a breach of condition notice.

Executive Director - Regeneration and Economic Development

Date: 26 February 2020

IMPORTANT NOTES FOR YOUR ATTENTION:

- 1. This permission refers only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment, bylaw, order or regulation.**
- 2. This permission refers only to those plans submitted as part of the Planning Application a copy of which is retained by the Local Planning Authority. The Local Planning Authority should be contacted in writing if it is proposed to amend these plans in any way as a further permission, may be required.**
- 3. If a Building Regulations Consent is required for these works it is your responsibility to ensure that the plans submitted for both the Building Regulations Consent and Planning Permission are the same in all respects. Should the plans relating to one consent vary from the other, it will be necessary for you to submit amended plans to this Department and obtain the relevant approval(s) prior to commencing any works.**

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.
- Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.
If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.
- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

Dear Sir/Madam

TOWN & COUNTRY PLANNING ACT 1990 (AS AMENDED) SECTION 96A APPLICATION FOR NON-MATERIAL CHANGE TO PLANNING PERMISSION

LOCATION: Academy Business Park, Lees Road, Knowsley Industrial Park, Kirkby,
Knowsley, L33 7SA

I refer to your application for a non material amendment which was received on the 20 May 2020. The proposed amendment(s) as listed below have been considered under S96A of the Town and Country Planning Act 1990 and have been determined to be non material.

KNOWSLEY MBC HEREBY GRANTS PERMISSION FOR THE FOLLOWING NON-MATERIAL AMENDMENT(S):- APPLICATION FOR A NON-MATERIAL AMENDMENT FOLLOWING GRANT OF PLANNING PERMISSION 19/00337/OUT OUTLINE PLANNING APPLICATION FOR THE DEMOLITION OF WEIGHING STATION AND THE ERECTION OF 5 INDUSTRIAL UNITS (USE CLASS B1(C)/B2/B8); 7 TRADE COUNTER UNITS (B8 USE); 1 SELF-STORAGE FACILITY (B8 USE); 1 RETAIL/FOOD UNIT (USE CLASS A1/A3/A5) AND 1 DRIVE-THRU UNIT (USE CLASS A1/A3/A5) TOGETHER WITH CAR PARKING AND ASSOCIATED WORKS. **(APPROVAL SOUGHT TO AMEND THE PITCH ROOF AND TO INCLUDE ROOF LIGHTS TO UNITS 1D AND 1E)**

The plan(s) listed below are those approved. The development must be undertaken in accordance with the approved plans on the original application, except where amended by those below, including any conditions attached to that permission. No substitution should be made without the prior consent from the Local Planning Authority. Failure to adhere to the details of the approved plans or to comply with the conditions on the original planning permission constitutes a contravention of the Town and Country Planning Act 1990 in respect of which enforcement action may be taken.

Knowsley Metropolitan Borough Council

Dear Sir/Madam

TOWN & COUNTRY PLANNING ACT 1990 (AS AMENDED) SECTION 96A
APPLICATION FOR NON-MATERIAL CHANGE TO PLANNING PERMISSION

LOCATION: Academy Business Park, Lees Road, Knowsley Industrial Park, Kirkby,
Knowsley, L33 7SA

I refer to your application for a non material amendment which was received on the 15 April 2021. The proposed amendment(s) as listed below have been considered under s96A of the Town and Country Planning Act 1990 and have been determined to be non material.

KNOWSLEY MBC HEREBY GRANTS PERMISSION FOR THE FOLLOWING NON-MATERIAL AMENDMENT(S):-

APPLICATION FOR A NON-MATERIAL AMENDMENT FOLLOWING GRANT OF PLANNING PERMISSION 19/00337/OUT (OUTLINE PLANNING APPLICATION FOR THE DEMOLITION OF WEIGHING STATION AND THE ERECTION OF 5 INDUSTRIAL UNITS (USE CLASS B1(C)/B2/B8); 7 TRADE COUNTER UNITS (B8 USE); 1 SELF-STORAGE FACILITY (B8 USE); 1 RETAIL/FOOD UNIT (USE CLASS A1/A3/A5) AND 1 DRIVE-THRU UNIT (USE CLASS A1/A3/A5) TOGETHER WITH CAR PARKING AND ASSOCIATED WORKS) TO ALLOW FOR AMENDMENT TO APPROVED PLANS RELATING TO THE RE-SITING OF UNITS 1F - 1H AND ALTERATIONS TO THE CAR PARKING LAYOUT)

The plan(s) listed below are those approved. The development must be undertaken in accordance with the approved plans on the original application, except where amended by those below, including any conditions attached to that permission. No substitution should be made without the prior consent from the Local Planning Authority. Failure to adhere to the details of the approved plans or to comply with the conditions on the original planning permission constitutes a contravention of the Town and Country Planning Act 1990 in respect of which enforcement action may be taken.

Approved Plan(s):-

Address/Location Of Development:

Academy Business Park
Lees Road
Knowsley Industrial Park
Kirkby
Knowsley
L33 7SA

Description of Development:

**ERECTION OF 6 NO. INDUSTRIAL UNITS (USE CLASS B1(C)/B2/B8) AND 5 NO.
TRADE COUNTER UNITS (USE CLASS B8) TOGETHER WITH CAR PARKING,
LANDSCAPING AND ASSOCIATED WORKS**

The Council of the Metropolitan Borough of Knowsley hereby give notice in pursuance of the above Act(s) that Planning Permission has been **granted** for the carrying out of the development referred to above in accordance with the application and plans submitted subject to the following condition(s):

1. The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: In order to comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in accordance with the approved plans and documents listed in Schedule 1.

Reason: For the avoidance of doubt.

3. The construction of the development hereby permitted shall only be carried out in accordance with the submitted Construction Management Plan by Jones Contracts dated July 2021.

Reason: In the interests of amenity and highway safety and to comply with Policies CS2 and CS19 Knowsley Local Plan Core Strategy, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

4. During the construction period no works and no deliveries or removal of materials shall take place outside the hours of 0800 to 1800 Monday to Friday (excluding Public Holidays), 0800 to 1300 Saturday and not at all on Sundays and Public Holidays.

Reason: In the interests of amenity and to comply with Policies CS2 and CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

5. In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority. Development on the part of the site affected must be halted and a risk assessment carried out and submitted to and approved in writing by the Local Planning Authority. Where unacceptable risks are found remediation and verification schemes shall be submitted to and approved in writing by the Local Planning Authority. These shall be implemented prior to the development (or relevant phase of development) being brought into use.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors in accordance with Policies CS2 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016, and saved Policy ENV5 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

6. No soil is to be imported to the site until it has been tested for contamination and assessed for its suitability for the proposed development; a suitable methodology for testing this material should be submitted to and agreed by the Local Planning Authority prior to the soils being imported onto site. The methodology should include the sampling frequency, testing schedules, criteria against which the analytical results will be assessed (as determined by the risk assessment) and source material information. The analysis shall then be carried out and evidence submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land by soil importation are minimised, together with those to controlled waters and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors in accordance with Policies CS2 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016, and saved Policy ENV5 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

7. Fixed plant and machinery associated with the development should be designed to a level that is at least 5dB(A) below the existing LA90 background noise level as measured during the relevant time period. Any tonal, impulsive and/or irregular noise would be addressed by imposing a penalty as per the methodology set out in BS4142:2014, Methods for rating and assessing industrial and commercial sound. Noise limits for fixed plant are to apply at a position 1 metre from the closest affected window of the nearest noise sensitive property.

Reason: In the interests of residential amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

8. The highway improvement works shown on the approved plans shall be implemented prior to the first occupation of any unit hereby permitted.

Reason: To ensure the provision of safe and adequate means of access to the development in the interests of highway safety and amenity and to comply with Policies CS2, CS7 and CS19 of the Knowsley Local Plan Core Strategy adopted January 2016.

9. The development shall not be brought into use until the areas indicated on the submitted plans for parking, servicing, vehicular manoeuvring (including provision for pedestrians/cyclists) have been surfaced, drained and permanently marked out or demarcated in accordance with the details and specifications shown on the Proposed Site Plan drawing number 389-PL-2104-E. These areas shall be retained as such thereafter.

Reason: In the interests of highway and pedestrian safety and to comply with Policies CS2 and CS7 of the Knowsley Local Plan Core Strategy adopted January 2016.

10. Notwithstanding any submitted details on approved drawings no unit shall be first occupied until a scheme for the provision of cycle and motorcycle parking, in accordance with the Council's current standards, has been submitted to and approved in writing by the Local Planning Authority. The scheme shall be implemented with regard the appropriate unit as approved before that particular unit is first brought into use and shall be retained as such thereafter. For the avoidance of doubt, long stay cycle parking must be covered and offer a means to secure the cycles.

Reason: To ensure that adequate provision is made for parking cycles and motorcycles on the site and to comply with Policies CS2 and CS7 of Knowsley Local Plan Core Strategy, adopted January 2016.

11. Notwithstanding any submitted details within 6 months of the development being first brought into use a Travel Plan shall be submitted to and approved in writing by the Local Planning Authority. The Travel - Plan shall include immediate, continuing and long-term measures to promote and encourage alternative modes of transport to the single-occupancy car. For the avoidance of doubt, the Travel Plan shall include, but not be limited to:

- Involvement of employees.
- Information on existing transport policies, services and facilities, travel behaviours and attitudes.
- Access for all modes of transport.
- Targets for mode share.
- Resource allocation including Travel Plan Co-ordinator and budget.
- A parking and management strategy.

- A marketing and communications strategy.
- Appropriate measures and actions to reduce car dependence and encourage sustainable travel.
- An action plan, including a timetable for the implementation of each of the above.
- Mechanisms for monitoring, reviewing and implementing the Travel Plan.

The approved Travel Plan shall be implemented in accordance with the timetable contained therein and shall continue to be implemented as long as any part of the development is occupied and in use.

An annual report shall be submitted to the Council no later than 1 month following the anniversary of the first occupation of the development for a period of 5 years. The report shall include a review of the Travel Plan measures, monitoring data and updated action plan.

Reason: To maximise opportunities for travel by modes of transport other than the private car, to ensure that the development is sustainable and to comply with Policies CS2 and CS7 of the Knowsley Local Plan Core Strategy adopted January 2016.

12. The Sustainable Drainage System shall be installed and implemented prior to the first occupation of any unit hereby permitted and shall be managed and maintained in accordance with the approved details following implementation and at all times thereafter that any of the units hereby approved are on site.

Reason: To ensure that effective drainage is in place prior to the units commencing use and to ensure the effectiveness of the flood risk measures during the lifetime of the development and to comply with Policies CS2 and CS24 of the Knowsley Local Plan Core Strategy adopted January 2016.

13. Notwithstanding the provisions of The Town and Country Planning (Use Classes) Order 1987 (as amended) and The Town and Country Planning (Use Classes) (Amendment) (England) Regulations 2020 (and any Order or Regulations revoking and re-enacting the Order or Regulations), Units 1A - 1C(1) to which this permission relates shall be used for light industrial (Use Class E (g) iii), general industrial (Use Class B2) or Storage and Distribution (Use Class B8) and for no other purpose, including any other use falling within Use Class E of those Regulations or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting those Regulations, except with the prior grant of a further planning permission.

Reason: To enable the Local Planning Authority to assess any proposal for a further change of use, whether or not it falls within the same Use Class and to comply with Policies CS4, CS6 and CS11 of the Knowsley Local Plan Core Strategy adopted January 2016 and saved Policies EC2 and EC3 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

14. The B8 Use units as shown on the approved Proposed Site Plan as Units 6C-6G shall not be used for any other purpose other than Use Class B8 of the Town and Country Planning Use Classes Order 1987 as amended, or alternatively Use Class B2 within that Order. Any B8 Use of those units shall have a trade counter element within the unit of no more than 15% of floor area of that individual unit for any ancillary retail sales.

Reason: For the avoidance of doubt and to ensure that the retail use remains ancillary to the main B8 use of units, thus limiting the loss of B8 floorspace and to comply with Policies CS4 and CS11 of the Knowsley Local Plan Core Strategy

adopted January 2016 and saved Policies EC2 and EC3 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

15. No unit shall be occupied until an outdoor, weatherproof electric vehicle charging point readily accessible from a dedicated parking space has been provided within the site to serve the unit. (The total development must have a minimum of 11 electric vehicle charging points).

All charge points shall be:

- a) A minimum of 7KW, and
- b) at least Mode 3 or equivalent, and
- c) untethered, and
- d) located in order to comply with the Equality Act 2010 and the accessibility requirements set out in the Building Regulations Part M.

All EV charging points shall be clearly marked as such and their purpose explained to new occupants within any travel planning advice.

Reason: In the interests of air quality, promoting sustainable travel opportunities and to comply with Policies CS2, CS7 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016 and NPPF Para 110.

16. The landscaping scheme hereby approved shall be implemented in accordance with a timetable to be agreed in writing with the local planning authority before the occupation of any unit. The scheme shall be maintained in accordance with details previously agreed in writing with the Local Planning Authority prior to implementation of the approved landscaping scheme.

Any trees, hedgerows or shrubs planted or retained in accordance with the landscape scheme which are removed, uprooted, destroyed, die or become severely damaged or become seriously diseased within 5 years of planting shall be replaced within the next planting season by trees, hedging or shrubs of similar size and species to those originally required to be planted.

Reason: In the interests of visual amenity and to comply with Policy CS19 of the Knowsley Local Plan Core Strategy adopted January 2016.

SCHEDULE 1

Date Received	Ref. No	Version	Drawing/Document Title
15/06/2021	CBO-0281-008	-	EXISTING ROAD MARKINGS: PROPOSALS TO REFRESH & REMOVE

REASON(S) FOR THE GRANTING OF PLANNING PERMISSION

The decision to grant planning permission has also been taken having regard to the policies and proposals as set out below, and to all relevant material considerations including supplementary planning guidance:-

KNOWSLEY LOCAL PLAN: CORE STRATEGY

CS2 - Development Principles
CS4 - Economy and Employment
CS7 - Transport Networks
CS11 - Principal Regeneration Area - Knowsley Industrial and Business Parks
CS19 - Design Quality and Accessibility in New Development
CS24 - Managing Flood Risk

SAVED POLICIES - KNOWSLEY REPLACEMENT UNITARY DEVELOPMENT PLAN (ADOPTED JUNE 2006)

EC1 - Strategy for Provision of Employment Land
EC2 - Sites Allocated for Employment Development
EC3 - Primarily Industrial Areas
ENV2 - Noise and Vibration
ENV5 - Contaminated Land

This informative is only intended as a summary of the reason(s) for the granting of planning permission. Should you require any further details relating to the decision please contact the relevant case officer (Lee Osborne on 0151 443 2395)

ARTICLE 35 STATEMENT

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating with the applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

NOTE FOR APPLICANT:

IMPORTANT - PLEASE READ CAREFULLY THE NOTES BELOW AS FAILURE TO COMPLY COULD MAKE THE DEVELOPMENT HEREBY PERMITTED UNAUTHORISED

- 1) This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - a) Any variation from the approved plans following commencement of the development, irrespective of the degree of variation, will constitute unauthorised development and may be liable to enforcement action.

- b) You or your agent or any other person responsible for implementing this permission should inform Planning Services immediately of any proposed variation from the approved plans and ask to be advised as to the best method to resolve the matter. Most proposals for variation to the approved plans will require the submission of a new planning application.
- 2) This permission is granted subject to conditions and it is the owner of the property and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond.
- 3) If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent.
 - a) If a condition precedent is not complied with prior to the start of development, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - b) In addition, if the requirements of a condition precedent are subsequently not complied with, the development is unauthorised and the only way to rectify the development is the submission of a new application.

If any other type of condition is breached then you will be liable to a breach of condition notice.

NOTE FOR APPLICANT: The applicant's attention is drawn to the following comments:

- 1. It is an offence to carry out any works within the public highway without the permission of the Highway Authority. The developer will be required to enter into an agreement with the Council to enable the works to be carried out. The applicant is advised to contact Mason Steele, t: 0151 443 2329, email: mason.steele@knowsley.gov.uk to discuss the matter further.
- 2. See attached letter from Merseyside Fire Authority
- 3. See attached letter from United Utilities

Executive Director - Regeneration and Economic Development

Date: 30 July 2021

IMPORTANT NOTES FOR YOUR ATTENTION:

1. This permission refers only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment, bylaw, order or regulation.
2. This permission refers only to those plans submitted as part of the Planning Application a copy of which is retained by the Local Planning Authority. The Local Planning Authority should be contacted in writing if it is proposed to amend these plans in any way as a further permission, may be required.
3. You should ensure that you understand the requirements of all planning conditions and that you fully comply with their requirements. If you are in any doubt about what a condition requires of you, please ask us for assistance. Planning conditions may require you to submit further information to us and await our approval before you can start your development. A failure to do so could result in your development being unlawful and necessitate the submission of a further planning application. A failure to comply with the conditions of the permission/consent may result in the taking of enforcement and potentially legal action, against you to remedy the breach of planning control.
4. A fee is normally payable to discharge planning conditions in accordance with government regulations.
5. This permission does not convey any rights or approval to build on, or develop, any land that is not fully owned or controlled by you, including on party boundaries. You should satisfy yourself that the agreement of any adjoining landowners has been given prior to commencing any building works.
6. If a Building Regulations Consent is required for these works it is your responsibility to ensure that the plans submitted for both the Building Regulations Consent and Planning Permission are the same in all respects. Should the plans relating to one consent vary from the other, it will be necessary for you to submit amended plans to this Department and obtain the relevant approval(s) prior to commencing any works. Knowsley Council's Building Control team are contactable on (0151)-443 2342 and they would be pleased to assist you.

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.
- Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.
If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.
- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

Dear Sir,

THE TOWN AND COUNTRY PLANNING ACT 1990

PLANNING APPLICATION NO: 20/00467/FUL

**PROPOSAL: ERECTION OF 6 INDUSTRIAL UNITS AND 5 TRADE COUNTER UNITS,
TOGETHER WITH CAR PARKING, LANDSCAPING AND ASSOCIATED WORKS.**

ADDRESS: ACADEMY BUSINESS PARK, LEES ROAD, KNOWSLEY INDUSTRIAL PARK.

The Fire Authority requests that any decision notice includes the following information;

The plans relating to the above application have been examined and below are the Fire Authority's observations:

* Access for fire appliances should comply with the requirements of Approved Document B5 of the Building Regulations.

* Water supplies for fire-fighting purposes should be risk assessed in accordance with the undermentioned guidance in liaison with the water undertakers (United Utilities - 0161 907 7351) with suitable and sufficient fire hydrants supplied.

*** Industry**

* The premises should comply with Section 55 of the County of Merseyside Act 1980

Should you require any further information in respect of this correspondence please contact the Officer named above

Yours faithfully

Mr. Armstrong
Authorised Fire Safety Inspecting Officer
And on behalf of Merseyside Fire & Rescue Authority

Guidelines on flow requirements for firefighting

The following flows represent the ideal requirements on new developments and during permanent system changes.

Housing

Housing developments with units of detached or semidetached houses of not more than two floors should have a water supply capable of delivering a minimum of eight litres per second through any single hydrant. Multi occupied housing developments with units of more than two floors should have a water supply capable of delivering a minimum of 20 to 35 litres per second through any single hydrant on the development.

Transportation

Lorry/coach parks - multi-storey car parks - service stations.

All of these amenities should have a water supply capable of delivering a minimum of 25 litres per second through any single hydrant on the development or within a vehicular distance of 90 metres from the complex.

Industry

The water supply infrastructure to any industrial estate should be as follows with the mains network on site being normally at least 150 mm nominal diameter—

Up to one hectare 20 litres per second.
One to two hectares 35 litres per second.
Two to three hectares 50 litres per second.
Over three hectares 75 litres per second.

Shopping, offices, recreation and tourism

Commercial developments of this type should have a water supply capable of delivering a minimum flow of 20 to 75 litres per second to the development site.

Education, health and community facilities

Village halls— Should have a water supply capable of delivering a minimum flow of 15 litres per second through any single hydrant on the development or within a vehicular distance of 100 metres from the complex.

Primary schools and single storey health centre's— Should have a water supply capable of delivering a minimum flow of 20 litres per second through any single hydrant on the development or within a vehicular distance of 70 metres from the complex.

Secondary schools, colleges, large health and community facilities— Should have a water supply capable of delivering a minimum flow of 35 litres per second through any single hydrant on the development or within a vehicular distance of 70 metres from the complex.

Our ref: DC/20/3345
Date: 02-OCT-20

Dear Sir/Madam,

Location: Academy Business Park, Lees Road, Knowsley Industrial Park, Kirkby, Knowsley, L33 7SA
Proposal: Erection Of 6 No. Industrial Units.

With regards to the above development proposal, United Utilities Water Limited ('United Utilities') wishes to provide the following comments.

United Utilities has reviewed the submitted documents and notes that the application does not make reference to the existing infrastructure that lies within the site. There are several water mains and sewers that fall within the site boundary, for which consideration must be given as they may impact on the layout designs.

The applicant should contact Developer Services at their earliest convenience to discuss this in more detail. It is recommended that this be undertaken prior to determination of this application to ensure any scheme granted consent can actually be delivered.

For advice regarding protection of United Utilities assets, the applicant should contact the teams as follows:

Water assets – DeveloperServicesWater@uuplc.co.uk

Wastewater assets – WastewaterDeveloperServices@uuplc.co.uk

Further information can also be found within the section '*United Utilities' Property, Assets and Infrastructure*' below.

Should the Council deem it appropriate to grant planning permission irrespective of our comments, we request the following conditions must be attached to any Decision Notice granted:

Drainage

In accordance with the National Planning Policy Framework (NPPF) and the National Planning Practice Guidance (NPPG), the site should be drained on a separate system with foul water draining to the public sewer and surface water draining in the most sustainable way.

We request the following drainage conditions are attached to any subsequent approval to reflect the above approach:

Condition 1 – Surface water

Prior to the commencement of any development, a surface water drainage scheme, based on the hierarchy of drainage options in the National Planning Practice Guidance with evidence of an assessment of the site conditions shall be submitted to and approved in writing by the Local Planning Authority.

The surface water drainage scheme must be in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacement national standards. In the event of surface water draining to the public surface water sewer, the pass forward flow rate to the public sewer must be restricted to 15 l/s.

The development hereby permitted shall be carried out only in accordance with the approved drainage scheme.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. This condition is imposed in light of policies within the NPPF and NPPG.

Condition 2 – Foul water

Foul and surface water shall be drained on separate systems.

Reason: To secure proper drainage and to manage the risk of flooding and pollution.

The applicant can discuss any of the above with Developer Engineer, **Graham Perry**, by email at wastewaterdeveloperservices@uuplc.co.uk.

Please note, United Utilities are not responsible for advising on rates of discharge to the local watercourse system. This is a matter for discussion with the Lead Local Flood Authority and / or the Environment Agency (if the watercourse is classified as main river).

If the applicant intends to offer wastewater assets forward for adoption by United Utilities, the proposed detailed design will be subject to a technical appraisal by an Adoptions Engineer as we need to be sure that the proposal meets the requirements of Sewers for Adoption and United Utilities' Asset Standards. The detailed layout should be prepared with consideration of what is necessary to secure a development to an adoptable standard. This is important as drainage design can be a key determining factor of site levels and layout. The proposed design should give consideration to long term operability and give United Utilities a cost effective proposal for the life of the assets. Therefore, should this application be approved and the applicant wishes to progress a Section 104 agreement, we strongly recommend that no construction commences until the detailed drainage design, submitted as part of the Section 104 agreement, has been assessed and accepted in writing by United Utilities. Any works carried out prior to the technical assessment being approved is done entirely at the developers own risk and could be subject to change.

Management and Maintenance of Sustainable Drainage Systems

Without effective management and maintenance, sustainable drainage systems can fail or become ineffective. As a provider of wastewater services, we believe we have a duty to advise the Local Planning Authority of this potential risk to ensure the longevity of the surface water drainage system and the service it provides to people. We also wish to minimise the risk of a sustainable drainage system having a detrimental impact on the public sewer network should the two systems interact. We therefore recommend the Local Planning Authority include a condition in their Decision Notice regarding a management and maintenance regime for any sustainable drainage system that is included as part of the proposed development.

For schemes of 10 or more units and other major development, we recommend the Local Planning Authority consults with the Lead Local Flood Authority regarding the exact wording of any condition. You may find the below a useful example:

Prior to occupation of the development a sustainable drainage management and maintenance plan for the lifetime of the development shall be submitted to the local planning authority and agreed in writing. The sustainable drainage management and maintenance plan shall include as a minimum:

- a. Arrangements for adoption by an appropriate public body or statutory undertaker, or, management and maintenance by a resident's management company; and*
- b. Arrangements for inspection and ongoing maintenance of all elements of the sustainable drainage system to secure the operation of the surface water drainage scheme throughout its lifetime.*

The development shall subsequently be completed, maintained and managed in accordance with the approved plan.

Reason: To ensure that management arrangements are in place for the sustainable drainage system in order to manage the risk of flooding and pollution during the lifetime of the development.

Please note United Utilities cannot provide comment on the management and maintenance of an asset that is owned by a third party management and maintenance company. We would not be involved in the discharge of the management and maintenance condition in these circumstances.

Water Supply

We can readily supply water for domestic purposes, but for larger quantities for example, commercial/industrial we will need further information. For properties three or more storeys high the developer may need to install some internal storage and internal booster pumps to ensure a constant supply to the upper storeys.

Should this application be approved the applicant must contact our water fittings section at Warrington North WwTW, Gatewarth Industrial Estate, off Liverpool Road, Sankey Bridges, Warrington, WA5 1DS. If the applicant intends to obtain a water supply from United Utilities for the proposed development, we strongly recommend they engage with us at the earliest opportunity. If

reinforcement of the water network is required to meet the demand, this could be a significant project and the design and construction period should be accounted for.

To discuss a potential water supply or any of the water comments detailed above, the applicant can contact the team at DeveloperServicesWater@uuplc.co.uk.

Please note, all internal pipework must comply with current Water Supply (water fittings) Regulations 1999.

United Utilities' Property, Assets and Infrastructure

Water mains cross the site. As we need unrestricted access for operating and maintaining them, we will not permit development over or in close proximity to the mains. We require an access strip as detailed in our 'Standard Conditions for Works Adjacent to Pipelines', a copy of which is enclosed.

The applicant must comply with our 'Standard Conditions' document. This should be taken into account in the final site layout, or a diversion may be necessary. Unless there is specific provision within the title of the property or an associated easement, any necessary disconnection or diversion required as a result of any development will be at the applicant's expense. If considering a water mains diversion, the applicant should contact United Utilities at their earliest opportunity as they may find that the cost of mains diversion is prohibitive in the context of their development scheme.

The Water Industry Act 1991 affords United Utilities specific rights in relation to the maintenance, repair, access and protection of our water infrastructure;

- Sections 158 & 159, outlines the right to inspect, maintain, adjust, repair or alter our mains. This includes carrying out any works incidental to any of those purposes. Service pipes are not our property and we have no record of them.
- Under Section 174 of the Act it is an offence to intentionally or negligently interfere with any resource main or water main that causes damage to or has an effect on its use or operation. It is in accordance with this statutory provision that we provide standard conditions to assist developers when working in close proximity to our water mains.

Condition 3

No development shall take place until a Construction Risk Assessment Method Statement (RAMS), for the construction phase and also the lifetime of the proposed development, is submitted to and approved in writing by the Local Planning Authority. The statement shall outline the potential impacts/ risks from all construction activities and detail the protection measures for the existing water mains and associated apparatus lying within the site boundary that will be required for (i) the construction phases and (ii) the lifetime of the development, with particular regard to the load bearing impacts of materials/ heavy duty vehicles, changing land levels, vibration, disturbance and health and safety considerations. Protection measures should be in line with the guidance found within United Utilities Standard Conditions for works adjacent to Pipelines (dated July 2015). All mitigation measures must be implemented in accordance with the approved details.

Reason: In order to protect the existing UU infrastructure and public drinking water supplies for the wider area.

Both during and post construction, there should be no additional load bearing capacity on the main without prior agreement from United Utilities. This would include earth movement and the transport and position of construction equipment and vehicles.

A public sewer crosses this site and we may not permit building over it. We will require an access strip width of six metres, three metres either side of the centre line of the sewer which is in accordance with the minimum distances specified in the current issue of Part H of the Building Regulations, for maintenance or replacement. Therefore a modification of the site layout, or a diversion of the affected public sewer may be necessary. All costs associated with sewer diversions must be borne by the applicant.

To establish if a sewer diversion is feasible, the applicant must discuss this at an early stage with our Developer Engineer at wastewaterdeveloperservices@uuplc.co.uk as a lengthy lead in period may be required if a sewer diversion proves to be acceptable.

Deep rooted shrubs and trees should not be planted in the vicinity of the public sewer and overflow systems. Where United Utilities' assets exist, the level of cover to the water mains and public sewers must not be compromised either during or after construction.

It is the applicant's responsibility to investigate the possibility of any United Utilities' assets potentially impacted by their proposals and to demonstrate the exact relationship between any United Utilities' assets and the proposed development.

A number of providers offer a paid for mapping service including United Utilities. To find out how to purchase a sewer and water plan from United Utilities, please visit the Property Searches website; <https://www.unitedutilities.com/property-searches/>

You can also view the plans for free. To make an appointment to view our sewer records at your local authority please contact them direct, alternatively if you wish to view the water and the sewer records at our Lingley Mere offices based in Warrington please ring [0370 751 0101](tel:03707510101) to book an appointment.

Due to the public sewer transfer in 2011, not all sewers are currently shown on the statutory sewer records and we do not always show private pipes on our plans. If a sewer is discovered during construction; please contact a Building Control Body to discuss the matter further.

Should this planning application be approved the applicant should contact United Utilities regarding a potential water supply or connection to public sewers. Additional information is available on our website <http://www.unitedutilities.com/builders-developers.aspx>

Yours faithfully

Shireen Lawrenson
United Utilities
Planning, Landscape and Ecology

Appendix 5

1. The development hereby permitted shall be carried out in accordance with the approved plans and documents listed in Schedule 1.

Reason: For the avoidance of doubt.

2. The approved Construction Environmental Management Plan shall be complied with throughout the construction period for the development unless otherwise agreed in writing with the Local Planning Authority.

Reason: In the interests of amenity and highway safety and to comply with Policies CS2 and CS19 Knowsley Local Plan Core Strategy, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

3. During the construction period no works and no deliveries or removal of materials shall take place outside the hours of 0800 to 1800 Monday to Friday (excluding Public Holidays), 0800 to 1300 Saturday and not at all on Sundays and Public Holidays except with the prior written permission of the Local Planning Authority.

Reason: In the interests of amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

4. Contaminated Land

A. Risk Assessment

No development shall take place until an assessment of the risks posed by any contamination within those phases has been submitted to and approved in writing by the Local Planning Authority. This assessment must be undertaken by a suitably qualified contaminated land practitioner, in accordance with authoritative guidance (CLR 11), and shall assess any contamination on the site, whether or not it originates on the site. Moreover, it must include (were relevant):

- I. a survey of the extent, scale and nature of contamination;
- II. an assessment of the potential risks to:
 - human health,
 - property (existing or proposed) including buildings, crops, livestock,
 - pets, woodland and service lines and pipes,
 - adjoining land,
 - groundwaters and surface waters,
 - ecological systems,
 - archaeological sites and ancient monuments.

B. Submission of Remediation Scheme

Where land affected by contamination is found which poses unacceptable risks in any phase including phase 1, no development shall take place until a detailed remediation scheme has been submitted to and approved in writing by the Local Planning Authority. The scheme must include an appraisal of remediation options,

identification of the preferred option(s), the proposed remediation objectives and remediation criteria, and a description and programme of the works to be undertaken including the verification plan. As a minimum, the scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to its intended use.

C. Implementation of Approved Remediation Scheme

The approved remediation scheme shall be implemented and a verification report submitted to and approved in writing by the Local Planning Authority, prior to the development (or relevant phase of development) being brought into use.

D. Reporting of Unexpected Contamination

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority. Development on the part of the site affected must be halted and a risk assessment carried out and submitted to and approved in writing by the Local Planning Authority. Where unacceptable risks are found remediation and verification schemes shall be submitted to and approved in writing by the Local Planning Authority. These shall be implemented prior to the development (or relevant phase of development) being brought into use.

E. Importation of Soil/Material

No soil is to be imported to the site until it has been tested for contamination and assessed for its suitability for the proposed development; a suitable methodology for testing this material should be submitted to and agreed by the Local Planning Authority prior to the soils being imported onto site. The methodology should include the sampling frequency, testing schedules, criteria against which the analytical results will be assessed (as determined by the risk assessment) and source material information. The analysis shall then be carried out and evidence submitted to and approved in writing to by the Local Planning Authority.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors in accordance with Policies CS2 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016, and saved Policy ENV5 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

5. Fixed plant and machinery associated with the development shall be designed to a level that is at least 5dB(A) below the existing LA90 background noise level as measured during the relevant time period. Any tonal, impulsive and/or irregular noise would be addressed by imposing a penalty as per the methodology set out in BS4142:2014, Methods for rating and assessing industrial and commercial sound.

Noise limits for fixed plant are to apply at a position 1m from the closest affected window of the nearest noise sensitive property.

Reason: In the interests of residential amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

6. Prior to any external lighting being installed a lighting scheme shall be submitted to and agreed in writing by the Local Planning Authority. The scheme shall include:
- Drawings of the lighting and lighting columns
 - A site layout indicating positions of the lighting columns and fixtures
 - An isolux drawing including luminosity details – Manufacturers specifications
 - Maintenance details.
 - Details of support columns.

The scheme shall take into account the Institution of Lighting Engineers Guidance Notes for the Reduction of Obtrusive Light.

External lighting shall only be installed in accordance with the agreed scheme and shall be maintained thereafter in accordance with that agreed scheme unless otherwise agreed in writing with the Local Planning Authority.

Reason: In the interests of amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV3 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

7. Prior to the first use of the drive-thru unit or the Class E(a)/E(b)/Sui Generis hot food takeaway kiosk a scheme shall have been previously submitted to and approved in writing by then Local Planning Authority detailing how the smoke and odour from each of the proposed Class E(b)/Sui Generis hot food takeaway uses will be controlled.

The information submitted must include;

- a. Details / specification of the equipment that will be installed to control odour and smoke
- b. The siting of any external ventilation stack; and,
- c. Details of any measures which are necessary to attenuate noise from the ventilation stack;

The approved scheme should take into account the requirements of the EMAQ guidance for the Control of Odour and Noise from Commercial Kitchen Exhaust Systems, dated 5 September 2018 and shall be fully installed and operating prior to the unit to which it is applicable first comes into use. It shall thereafter be retained and operated to then manufacturer's specification whenever the permitted use is in operation.

Reason: In the interests of amenity and to comply with Policies CS2 and CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV3 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

8. The drainage from the kitchen areas serving the Class E(b)/Sui Generis hot food takeaway uses (drive-thru unit and Class E(a)/E(b)/Sui Generis hot food takeaway kiosk) shall incorporate a grease trap of suitable size and design before its connection to any private or public sewer. The trap shall be installed and operating prior to the premises being brought into use. It shall thereafter be retained and operated in accordance with the approved specification at all times that the Class E(b)/Sui Generis hot food takeaway premises are in operation.

Reason: In the interests of amenity and to comply with Policies CS2 and CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV3 of the Knowsley Replacement Unitary Development Plan, adopted June 2006.

9. Notwithstanding any submitted details on approved drawings no unit shall be first occupied until a scheme for the provision of cycle and motorcycle parking, in accordance with the Council's current standards, has been submitted to and approved in writing by the Local Planning Authority. The scheme shall be implemented with regard the appropriate unit as approved before that particular unit is first brought into use and shall be retained as such thereafter. For the avoidance of doubt, long stay cycle parking must be covered and offer a means to secure the cycles.

Reason: To ensure that adequate provision is made for parking cycles and motorcycles on the site and to comply with Policies CS2 and CS7 of the Core Strategy, adopted January 2016.

10. Notwithstanding any submitted details within 3 months of the development being first brought into use a Travel Plan shall be submitted to and approved in writing by the Local Planning Authority. The Plan shall include immediate, continuing and long-term measures to promote and encourage alternative modes of transport to the single-occupancy car. For the avoidance of doubt, the Travel Plan shall include, but not be limited to:

- Involvement of employees.
- Information on existing transport policies, services and facilities, travel behaviours and attitudes.
- Access for all modes of transport.
- Targets for mode share.
- Resource allocation including Travel Plan Co-ordinator and budget.
- A parking and management strategy.
- A marketing and communications strategy.
- Appropriate measures and actions to reduce car dependence and encourage sustainable travel.
- An action plan, including a timetable for the implementation of each of the above.
- Mechanisms for monitoring, reviewing and implementing the Travel Plan.

The approved Travel Plan shall be implemented in accordance with the timetable contained therein and shall continue to be implemented as long as any part of the development is occupied and in use.

An annual report shall be submitted to the Council no later than 1 month following the anniversary of the first occupation of the development for a period of 5 years. The report shall include a review of the Travel Plan measures, monitoring data and updated action plan.

Reason: To maximise opportunities for travel by modes of transport other than the private car, to ensure that the development is sustainable and to comply with Policies CS2 and CS7 of the Knowsley Local Plan Core Strategy adopted January 2016.

11. The B8 Use units as shown on the approved Proposed Site Plan as Units 6C-6G shall not be used for any other purpose other than Use Class B8 of the Town and Country Planning Use Classes Order 1987 as amended, or alternatively Use Class B2 within that Order. Any B8 Use in Units 1F-1H and Units 6C-6G shall have a trade counter element within the unit of no more than 15% of floor area of that individual unit for any ancillary retail sales.

Reason: For the avoidance of doubt and to ensure that the retail use remains ancillary to the main B8 use of units, thus limiting the loss of B8 floorspace and to comply with Policies CS4 and CS11 of the Knowsley Local Plan Core Strategy adopted January 2016 and saved Policy EC3 of the Knowsley Replacement Unitary Development Plan adopted June 2006.

12. No unit shall be occupied until an outdoor, weatherproof electric vehicle charging point readily accessible from a dedicated parking space has been provided within the site to serve the unit. (The total development must have a minimum of 15 electric vehicle charging points).

All charge points shall be:

- a) A minimum of 7KW, and
- b) at Least Mode 3 or equivalent, and
- c) untethered, and
- d) located in order to comply with the Equality Act 2010 and the accessibility requirements set out in the Building Regulations Part M.

All EV charging points shall be clearly marked as such and their purpose explained to new occupants within any travel planning advice.

Reason: In the interests of air quality, promoting sustainable travel opportunities and to comply with Policies CS2, CS7 and CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016 and NPPF Para 110.
