**REGENERATION AND ECONOMIC DEVELOPMENT
DEPARTMENT**

TOWN AND COUNTRY PLANNING ACT 1990

PLANNING PERMISSION

Application No: 23/00007/FUL

Name and address of applicant

Mr Bari Regazzi
36 The Cafe Wilson Road
Huyton
Knowsley
L36 6AD

Name and address of agent

O'Rourke-Designs
9 Swansea Close
Garston
Liverpool
L19 2HF

Date of Receipt: 9 January 2023

Date Valid: 20 February 2023

Address/Location Of Development:

The Cafe
36 Wilson Road
Huyton
Knowsley
L36 6AD

Description of Development:

**CHANGE OF USE FROM CAFÉ TO FORM RESTAURANT (USE CLASS E)
TOGETHER WITH ERECTION OF A SINGLE STOREY FRONT, SIDE AND REAR
EXTENSION**

The Council of the Metropolitan Borough of Knowsley hereby give notice in pursuance of the above Act(s) that Planning Permission has been **granted** for the carrying out of the development referred to above in accordance with the application and plans submitted subject to the following condition(s):

1. The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: In order to comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in accordance with the following approved plans and documents:-

- a. Proposed Plans - 002 (received 30/06/2023)
- b. Site Location Plans - 003 (received 09/01/2023)

Reason: For the avoidance of doubt.

3. A Phase I site investigation shall be submitted for written approval prior to works commencing on the extension in order to establish whether there are any concerns of contamination from the current or previous use of the site or adjacent sites. This report shall include the results of a desk study, site walkover, and human health and environmental risk assessment.

If identified as necessary by the desk study a Phase 2 site investigation and remediation proposals shall be submitted for approval prior to works commencing. In any event the applicant/developer is requested to contact the Council's Environmental Protection Unit (Tel: 0151 443 4712) as soon as is practicable should previously unsuspected contamination be encountered during the development of the site. A site completion report shall be submitted for written approval prior to occupation confirming that encountered site conditions were as expected and detailing any necessary remedial actions.

Reason: In order to avoid harm to human health from contamination.

4. The proposed development shall not be brought into use until precise scheme detail of the proposed cycle storage highlighted on Site Plan (Received 30/06/2023) has been submitted to and approved in writing by the Council as Local Planning Authority. The scheme shall be implemented as agreed before any part of the development has been brought into use. For the avoidance of doubt, long stay cycle parking must be covered and offer a means to secure the cycles.

Reason: In order to ensure adequate cycle parking.

5. No part of the development hereby granted permission shall be occupied until an assessment has been carried out in accordance with the Defra document "Guidance on the Control of Odour and Noise from Commercial Kitchen Exhaust Systems". The outcome of the assessment shall be submitted to, for approval in writing, the Local Planning Authority.

The information submitted must include;

- a. Details of the equipment that will be installed to control odour and smoke;
- b. The siting of any external ventilation stack; and,
- c. Details of any measures which are necessary to attenuate noise from the ventilation stack;

The approved scheme shall be fully installed and operating prior to the development hereby permitted being first brought into use. It shall thereafter be retained and operated to the manufacturer's specification.

Reason: In order to prevent harmful odours affecting human health.

6. The drainage from the kitchen area shall incorporate a grease trap of a design which has been approved in writing by the local planning authority before its connection to any private or public sewer. The trap shall be installed and operating prior to the premises being brought into use. It shall thereafter be retained and operated in accordance with the approved specification at all times that the premises are in operation as a cafe.

Reason: In order to avoid grease impacting the sewer network.

7. In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority. Development on the part of the site affected must be halted

and a risk assessment carried out and submitted to and approved in writing by the Local Planning Authority. Where unacceptable risks are found remediation and verification schemes shall be submitted to and approved in writing by the Local Planning Authority. These shall be implemented prior to the development (or relevant phase of development) being brought into use.

Reason: In order to avoid harm to human health from contamination.

8. No topsoil is to be imported to the site until it has been tested for contamination and assessed for its suitability for the proposed development; a suitable methodology for testing this material should be submitted to and agreed by the Local Planning Authority prior to the soils being imported onto site. The methodology should include the sampling frequency, testing schedules, criteria against which the analytical results will be assessed (as determined by the risk assessment) and source material information. The analysis shall then be carried out and evidence submitted to and approved in writing to by the Local Planning Authority.

Reason: In order to avoid harm to human health from contamination.

9. Fixed plant and equipment associated with the development shall be designed to a level that is at least 5dB(A) below the existing LA90 background noise level as measured during the relevant time-period. Any tonal, impulsive and/or irregular noise would be addressed by imposing a penalty as per the methodology set out in BS 4142:2014+A1:2019, Methods for Rating and Assessing Industrial and Commercial Sound. Noise limits for fixed plant are to apply at a position 1 metre from the closest affected window of the nearest noise sensitive property.

Reason: In the interests of residential amenity and to comply with Policy CS19 of the Knowsley Local Plan, adopted January 2016 and saved Policy ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006

10. The building shall not be open to public outside the hours of

- 07:00 - 20:00 Monday to Friday
- 07:00 - 23:00 Saturday and Sunday

Reason: In order to control the hours of operation of the building.

REASON(S) FOR THE GRANTING OF PLANNING PERMISSION

The decision to grant planning permission has also been taken having regard to the policies and proposals as set out below, and to all relevant material considerations including supplementary planning guidance:-

KNOWSLEY LOCAL PLAN: CORE STRATEGY

CS2 - Development Principles

CS4 - Economy and Employment

CS6 - Town Centres and Retail Strategy

CS19 - Design Quality and Accessibility in New Development

SAVED POLICIES - KNOWSLEY REPLACEMENT UNITARY DEVELOPMENT PLAN (ADOPTED JUNE 2006)

EC3 - Primarily Industrial Areas

This informative is only intended as a summary of the reason(s) for the granting of planning permission. Should you require any further details relating to the decision please contact the relevant case officer (Andrew Hunt on 0151 443 2204)

ARTICLE 35 STATEMENT

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating with the applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

NOTE FOR APPLICANT:

IMPORTANT - PLEASE READ CAREFULLY THE NOTES BELOW AS FAILURE TO COMPLY COULD MAKE THE DEVELOPMENT HEREBY PERMITTED UNAUTHORISED

- 1) This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - a) Any variation from the approved plans following commencement of the development, irrespective of the degree of variation, will constitute unauthorised development and may be liable to enforcement action.
 - b) You or your agent or any other person responsible for implementing this permission should inform Planning Services immediately of any proposed variation from the approved plans and ask to be advised as to the best method to resolve the matter. Most proposals for variation to the approved plans will require the submission of a new planning application.
- 2) This permission is granted subject to conditions and it is the owner of the property and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond.
- 3) If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent.
 - a) If a condition precedent is not complied with prior to the start of development, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - b) In addition, if the requirements of a condition precedent are subsequently not complied with, the development is unauthorised and the only way to rectify the development is the submission of a new application.

If any other type of condition is breached then you will be liable to a breach of condition notice.

Informative

1. The proposed development lies within an area that has been defined by the Coal Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design which takes into account all the relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at: www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at: www.gov.uk/government/organisations/the-coal-authority

Executive Director - Regeneration and Economic Development

Date: 8 August 2023

IMPORTANT NOTES FOR YOUR ATTENTION:

1. This permission refers only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment, bylaw, order or regulation.
2. This permission refers only to those plans submitted as part of the Planning Application a copy of which is retained by the Local Planning Authority. The Local Planning Authority should be contacted in writing if it is proposed to amend these plans in any way as a further permission, may be required.
3. You should ensure that you understand the requirements of all planning conditions and that you fully comply with their requirements. If you are in any doubt about what a condition requires of you, please ask us for assistance. Planning conditions may require you to submit further information to us and await our approval before you can start your development. A failure to do so could result in your development being unlawful and necessitate the submission of a further planning application. A failure to comply with the conditions of the permission/consent may result in the taking of enforcement and potentially legal action, against you to remedy the breach of planning control.
4. A fee is normally payable to discharge planning conditions in accordance with government regulations.
5. This permission does not convey any rights or approval to build on, or develop, any land that is not fully owned or controlled by you, including on party boundaries. You should satisfy yourself that the agreement of any adjoining landowners has been given prior to commencing any building works.
6. If a Building Regulations Consent is required for these works it is your responsibility to ensure that the plans submitted for both the Building Regulations Consent and Planning Permission are the same in all respects. Should the plans relating to one consent vary from the other, it will be necessary for you to submit amended plans to this Department and obtain the relevant approval(s) prior to commencing any works. Knowsley Council's Building Control team are contactable on (0151)-443 2342 and they would be pleased to assist you.

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- As this is a decision for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.
- Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.
If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.
- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
