LUTEC AVONY OUTDOOR LED SOLAR LANTERN WALL LIGHT WITH PIR SENSOR BLACK 200LM (142AJ)

☆☆☆☆☆ (

Avony wall light with heritage lantern design and efficient solar performance. Offers a wire-free lighting solution for outdoor walls, porches, and garden entrances. Traditional silhouette, and matt black finish, for a timeless feel with internal technology tailored for energy-conscious homes. Powered by a monocrystalline solar panel to charge during the day and light-up at night with a warm white LED solar filament bulb (2700K). A discreet rear switch allows a choice of 3 x lighting modes: 'On' for full brightness from dusk, 'Auto' to activate only when motion is detected (8m range and 120° sensor) and 'Dim' to maintain a gentle glow that brightens when movement is sensed. IP44-rated and crafted from durable, weather-resistant polycarbonate. Designed to handle year-round weather with minimal upkeep. Ideal for those requiring a stylish upgrade to outdoor lighting with a balance of form, function, and energy-free simplicity. Please note: the performance of solar lighting depends on placement and sunlight exposure. For best results, install on a south-facing wall with maximum direct sunlight, and allow for seasonal changes and weather conditions to impact charging efficiency. This product uses a low voltage solar LED bulb (E27, DC 3.5V, 2W).

- IP44: For Outdoor Use
- Warm White
- Decorative Design
- 200lm
- Polycarbonate Body
- Polycarbonate Diffuser
- Up to 15,000 Hours Life
- 120° 8m PIR Sensor Range
