

The proposed use of Jeffreys Crescent is a children's residential home.

There will be 2 residential support workers 24hrs a day. The staff would be working on a shift pattern of 2 on 4 off, the timing of handover will be at 10am to negate any issues with parking as the majority of people will be in work during this time period.

The professionals visiting will be once a month statutory visits from social workers. As stated above our plan is to keep 15 Jeffreys Crescent as family orientated as possible to give the kids a family feel to grow and achieve their aspirations therefore meetings with regards to the young people will be held off site at our office premises to ensure the home keeps a family feel.

Our main objective is to ensure the nature of the house is the same as any other family home in the green in order to protect our young people from feeling different and ensure the neighbours are happy.

If you any more inquiries, feel free to give me a call 07932687759.

Yours sincerely
Curtis Martins-Brown
