Description of Proposed Works

Please describe the proposed works

The subject of this planning application is the request for approval to carefully demolish and rebuild the Easterly Section of the North Wall. This is a planning application relating to LBC application 22/00657/LBC.

This Easterly Section is attached as a continuing wall to the Westerly Section of the North Wall which is one of the walls noted in a related LBC (22/00375/LBC).

The requirement to demolish arises because the removal of the Westerly adjoining section would lead to serious structural integrity issues for the remaining Easterly Section. The wall would likely collapse.

A Structural Engineers Report has been sourced specifically relating to the Easterly Section of the North Wall, highlighting that the wall is already leaning and unsafe due to issues relating to the lack of support, brick spalling and ground level inconsistencies.

The proposal is as follows:

- Initially remove the top portion of the wall as a safety precaution
- At the same time as demolishing the walls detailed in 22/00375/LBC, to also then carefully demolish this remaining section of wall
- Remove earth to the rear (north side) of the wall to reduce the level to that which is consistent with the front of the wall, thereby protecting the rebuilt wall. This would include the installation of a drain to ensure water is not retained behind the wall in the event of flooding.
- Retain / reclaim any bricks suitable for re-use to build the new wall outer leaf (which would be completed at the same time as thehovels rebuild) any new bricks to be used shall be handmade, size, colour mix and textures to match existing historic brickwork.

it is proposed that during the rebuild of the wall, the existing nibs (i.e. the brick room separator columns that are still visible in the existing wall) are rebuilt in the same positions as previous. This will ensure the build retains a key feature of the existing wall, ensuring one can re-imaging what the wall may have looked like and been separated like in years gone by.

The 2 remaining whitewashed pergola pillars will be carefully checked during demolition works. Should there be any evidence of old brick from the previous hovels structure, the whitewash will be stripped, with the brick being repointed where required, and any damaged bricks replaced. If no old bricks are evident within the structure, the pillars will be rebuilt using the same reclaimed brick so as to retain the current shape and aesthetic. They will not be whitewashed.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
