Details of the pre-application advice received

Afternoon,

Construction of the small ramp highlighted in the image provided shouldn't be too onerous. Detail of the ramp will be required with any planning application to ensure its DDA compliance, i.e how steep the ramp is (ideally 1:20), detail of handrail to be provided, what materials would be used for its construction (none slip) etc

The land in question is adopted highway. It is an offence to work or amend the adopted highway without consent. If planning permission is granted, someone will be required to contact our site development team to sign off on the ramp and its materials etc

I note that the existing wall is to be removed. This wall currently marks out the boundary of the adopted highway and the private land associated to the building. Some form of delineation will need to be provided which will continue to highlight where the extent of our adoption extends to. This will help to avoid confusion in the future. The delineation could simply be different tiles or flags.

Regarding how to make an actual planning application, Lee who I have CCed will be able to advise you better. The detail I have highlighted above would need to be addressed for highways to be satisfied with the proposal.

Best Regards,

Anthony

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No
