

Materials Prohibited	
Materials prohibited from use, except where used in accordance with 'Good Practice in the Selection of Construction Materials March 2017' or unless required by the Contract	
a)	high alumina cement in the structural elements;
b)	wood wool slabs in permanent formwork to concrete;
c)	calcium chloride admixtures for use in reinforced concrete;
d)	asbestos or asbestos-containing products, as defined in the 'Control of Asbestos at Work Regulations, as amended 2012' or any other statutory modification or re-enactment thereof;
e)	any naturally occurring or man-made mineral fibres (for example, rock-wool or slag wool) with a thickness of 3 microns or less and a length of 200 microns or less, unless they are appropriately sealed to prevent migration of fibres;
f)	aggregates for use in reinforced concrete which do not comply with: 'BS EN 12620:2002' properties of aggregates used in concrete 'BS EN 12320:2002' Properties of aggregates used in mortar 'BS EN 12055 (Parts 1 & 2)' properties of lightweight aggregates. 'Guidance on avoiding alkali-silica reaction and limitations on alkali content in BRE Digest 330 (2004)' & 'Concrete Society Technical Report 30' (1997);
g)	lead, lead paint or any other materials containing lead which may be ingested, inhaled or absorbed, except where copper alloy fittings also containing lead are specifically required in drinking water pipework by any relevant statutory requirement or where lead flashings or other lead roof coverings are specifically provided for in the Contract;
h)	urea formaldehyde foam or materials which may release formaldehyde in quantities which may be hazardous with reference to the limits set by the Health and Safety Executive;
i)	calcium silicate bricks or tiles;
j)	vermiculite unless it is established as being fibre-free; calcium silicate bricks or tiles;
k)	any products containing cadmium referred to in Statutory Instrument SI 2006/3321 Controls on dangerous substances and preparations Regulations 2006. Reference should also be made to HSE 604336 Cadmium and zinc;
l)	any new timber treated with pentachlorophenol;
m)	non-galvanneal mild steel structural fixings for building elements particularly susceptible to erosion;
n)	concrete used in circumstances where it is susceptible to alkali/silica reaction;
o)	materials containing chlorofluorocarbons (CFCs);
p)	solvent based paints except where water based paints are unsuitable for availability;
q)	any new materials not in accordance with statutory requirements. British Standards, Codes of Practice and good building practice current at the date of incorporation of the relevant materials into the Works or the specifications thereof.

- Proposed 4.8m wide access track to be maintained for rear land access.

Proposed boundary layers to access track to rear land. Plot fence / planting bed / small embankment and hedgerow.

2no. car spaces indicated per plot.

Proposed expressed car port area through continuation of Farm House roof.

Existing trees to boundary proposed retained.

Proposed feature brick estate wall with raised planter in front, to define semi private and private amenity spaces.

Estate road proposed at 4.8m wide with a 2m wide footpath to 1no. side as shown.

Indicates proposed planting bed.

Proposed curved feature brick estate wall.

Plot 01 proposed private amenity area.

Proposed detached garage with feature pergola framing over drive area.

Proposed feature tree in raised tree planter.

Proposed feature brick estate wall with raised planter behind to private amenity area.

Proposed open front garden, semi private to plot 01.

Proposed post and rail fence in front of proposed hedgerow, all max 1m in height.

Proposed feature oversized gate posts and feature wall to define front building line, attached to plot 01 adjacent entrance.

3no. proposed mature trees to line access road.

Delapidated Shed

Woodland

Overgrown area

Proposed acoustic close boarded fence, to suit specialist design. To be situated within a proposed bank of trees to soften the fence's appearance, on top of a small raised bund.

Existing levels and proposed banking to be utilised as required to assist in acoustic defence.

Existing trees to boundary proposed retained.

Proposed yard fronting the farm stead. Space for 8no. cars. Yard flanked by raised feature planters to define vehicle and pedestrian areas.

Existing trees to boundary proposed retained.

Proposed hedgerow and tree planting to define entrance onto yard.

Proposed feature brick estate wall between green space and yard behind.

Indicates plot ownership lines.

Proposed detached garage for plot 03.

Proposed hedgerow to define semi private green space.

Existing trees proposed removed shown dotted.

Proposed turfed lawns.

Existing trees to boundary proposed retained.

Indicates front door.

Indicates rear french doors onto private amenity.

Indicates rear or side second utility doors.

Proposed close boarded fence, acoustically rated, with hedge planting in front.

Proposed orchard to be planted to provide screening and interest.

Existing trees to boundary proposed retained.

Proposed post and rail fence to match existing context fronting Village Hall opposite.
