POLICY CONSIDERATIONS

The application complies with Policies CS2 and CS19 of the Core Strategy and saved Policies H5 and H8 of the UDP; the application also complies with the Householder Development SPD.

DESIGN, ACCESS AND CRIME PREVENTION

The design of the proposal is acceptable. Whilst the roof would not be pitched like the main dwelling it would have a rooflight feature which would create interest and avoid a plain flat roof. Furthermore the part that would be visible from public areas would be set back from the highway and given the relationship with the neighbouring property would not be a prominent feature such that it would cause harm to the character of the area. Overall, the design of the scheme is acceptable and complies with Saved Policy H8. The application raises no crime or anti-social behaviour issues.

RESIDENTIAL AMENITY

The proposal would not harm the amenity of neighbouring properties.

In relation to 11, the extension would only extend 3 metres along the boundary which is less than the 4 metres permissible in the Householder Development SPD.

In relation to 17, there would be no impact from the side and rear extension as the extension would only project 3 metres from the rear. Whilst the main dwelling of 17 is set further back than 15, this is offset by the rear extension of 15 which means that the proposed extension would not extend significantly beyond 17.

The extension complies with the Householder Development SPD. Overall, the proposal will not cause harm to the amenity of neighbouring properties.

CONCLUSION

The proposal is acceptable in design and would not harm the amenity of neighbouring properties, The application complies with local planning policies and is recommended for approval.
